By THE ASSOCIATED PRESS
John Glenn received an endorsement from Jacqueline Kennedy Onassis Thursday and U.S. Sen. Howard Metzenbaum courted United Auto Workers President Leonard Woodcock as the race for the Democratic Senate nomination entered the stretch.

The two candidates were to have their final face-to-face confrontation today in a noontime debate before the Cleveland City Club. Both planned to spend the rest of the day wooing votes in Cleveland.

A Glenn aide said words of support from Mrs. Onassis, widow of President John F. Kennedy and now the wife of Greek shipping magnate Aristotle Onassis, will be broadcast in radio and television commercials "as soon as possible."

In a message taped over the telephone from her New York City apartment, Mrs. Onassis said, "John Glenn's leadership would be a shining light in the United States Senate."

She said she and all Americans remember when the former astronaut "became our national hero, when he made us feel pride in America that we had not felt for a long time."

Mrs. Onassis spoke on the telephone with Jim Dunn, a former aide to her brother-in-law, the late U.S. Sen. Robert Kennedy, who was assassinated in 1968.

She told Dunn, "I have never done anything political for anyone before, but I feel that both I and the country have an obligation to John Glenn."

Metzenbaum appeared with Woodcock at a news conference at Cleveland's Burke Lakefront Airport and then accompanied him to Ashtabula for a tour of several plants where workers are represented by UAW locals.

Woodcock expressed pleasure that Metzenbaum "has taken on the oil industry." He said gasoline price increases "had a disastrous effect on the auto industry," causing a 14.7 per cent rise in unemployment in the industry.

Metzenbaum lashed out again at Standard Oil of Ohio for its latest price increases, saying it will "take almost \$8 million more out of the pockets of Ohio motorists... on an annual basis."

He questioned "how Sohio can be permitted to raise prices six cents a gallon by citing changes in the cost of crude oil, while Ashland Oil Co. is reducing prices, also citing crude oil costs?"

Oil Association Sues Metzenbaum For \$11 Million

COLUMBUS, Ohio (AP) — The Ohio Petroleum Marketers Association and Parmar Oil Co. of Marietta filed suit today against U.S. Sen. Howard M. Metzenbaum, D-Ohio, charging he made slanderous statements against the oil industry.

The suit in Franklin County Common Pleas Court asks for \$1 million in compensatory damages and \$10 million in punitive damages.

The suit comes just four days before Ohio's May 7 primary election, in which Metzenbaum faces opposition for the Democratic nomination.

The association is a trade organization composed of distributors of oil products. Parmar is one of its members.

The suit is a class action suit on behalf of all oil distributors.

The distribution industry said Metzenbaum, in April, was responsible

Metzenbaum said he was continuing to talk with Federal Energy Office officials and had been told the agency would investigate Sohio.

In addition, he said he plans to co-sponsor with Sen. Henry Jackson, D-Wash., a bill to require the major oil companies to secure federal charters.

Glenn blasted Metzenbaum during a news conference in Cleveland Thursday for his reported statement that being in the military was not holding a job, and denounced the senator's alleged statement that "we demobilize our troops in Europe and rely on the nuclear deterrent."

Metzenbaum issued a statement almost immediately accusing Glenn of "distorting my positions on issues."

Glenn's office said Metzenbaum made the statement about military service at an April 18 fund-raising dinner in Cleveland and suggested the demobilization on a Columbus television program last Sunday.

He challenged Metzenbaum to "look a disabled veteran in the eye and tell him he did not have a job."

And he charged the senator with "an appalling lack of understanding of foreign policy" and said reliance on a nuclear deterrent would be dangerous, and more expensive than maintaining the troop force.

Metzenbaum denied he ever advocated total reliance on nuclear deterrents.

"I have repeatedly called for gradual, phased withdrawal of American troops stationed in Europe over a number of years," he said.

"This gradual approach would begin the process of changeover from foreign military spending to expenditures for sorely needed domestic programs, without adverse effect on national security."

In other campaign activity, state Rep. Charles E. Fry of Springfield, candidate for the Republican nomination for governor, accused former Gov. James A. Rhodes of having a "public be damned" attitude.

Saying Rhodes has refused to make public his income tax statements and has rejected his offers for a debate, Fry declared:

"I believe the people want and deserve a much higher level of openness and accountability from their public officials. The day of the backslapping politician with his propensity for cronyism is passed."

Rhodes, meanwhile, continued to

CIRCLEVILLE TRACK TEAM—The Circleville High School track team won the South Central Ohio League meet yesterday at the CHS all-weather facility. It was the fifth consecutive title, the longest win skein of any league school in track. Four records were set in spite of the cold damp

Israel Wants Cease-Fire With Syria

JERUSALEM (AP) — Israel called for a cease-fire on the Golan Heights and reported no progress toward a disengagement agreement with Syria as Secretary of State Henry A. Kissinger prepared to shuttle on to Damascus today.

Kissinger met for eight hours with Israeli leaders Thursday, and afterward Information Minister Simon Peres said "meaningful and worthwhile" negotiation with Syria can only occur after a cease-fire in the artillery and air war that their forces have been waging for nearly two months.

"We believe the negotiations would work best if there was no pressure by either side, and particularly if military actions were stopped," Peres told newsmen.

He emphasized that his remarks were not an ultimatum to the Syrians. But he added: "We will await Syrian reaction."

As Kissinger and the Israelis talked, Israel escalated the fighting on the northern front. The Israeli command said its artillery landed shells within nine miles of Damascus and its planes attacked bases of the Palestine guerrillas on the Lebanese side of Mt. Hermon. The Israelis denied a Syrian claim that Syrian missiles shot down two Israeli jet fighters.

Peres told newsmen that in meetings with Kissinger, Premier Golda Meir, premier-designate Yitzhak Rabin and other political and military leaders gave him only "general principles" to take to Damascus, and that no progress was made in eliminating the conflicts in the Israeli and Syrian disengagement proposals.

State Department spokesman Robert J. McCloskey said the Israelis still were using the map positions Defense Minister Moshe Dayan delivered to Kissinger in Washington on March 30.

A high-ranking Syrian official in Damascus said his government was confident Kissinger was carrying a significant Israeli concession that could pave the way for the disengagement negotiations.

"The talks will be complicated, but we are convinced Washington realizes what is at stake and Kissinger will not come with an empty briefcase," the source said.

Syrian officials said President Hafez Assad is pursuing a Viet Cong-style strategy of "fighting and negotiating." But diplomats in Damascus said the Syrians appear to have adopted a more favorable attitude toward negotiations.

by the committee Thursday, White House lawyer James St. Clair will be able to question witnesses, raise objections and propose witnesses.

The rules and the Democratic majority's support of them helped restore harmony in the committee after its party-line split Wednesday when Nixon was found in non-compliance with the committee's subpoena for Watergate tapes.

Adoption of the rules marked the final step in the long preparation for receiving evidence that the committee has been engaged in since January. Starting next week it will begin examining the information on which it will base a judgment as to whether Nixon should be impeached.

The rules include a provision permitting hearings to be televised if the committee decides to open them to the public. Chairman Peter W. Rodino Jr., D-N.J., said the first week of the hearings would be closed.

Those first four or five days will be taken up by a presentation to the committee of the secret grand jury

evidence relating to Nixon's role in the Watergate cover-up and other information covering a wide range of alleged presidential misconduct.

The committee's ornate hearing room will be fitted out with electronic equipment to permit the playing of tapes, so that each of the 38 members has his own headset and set of transcripts.

Although Nixon refused to give the committee the 42 tapes it subpoenaed April 11, furnishing edited transcripts instead, he previously had turned over 19 tapes that already had been given to the Watergate grand jury. These include the controversial March 21 tape of Nixon's conversation with his former counsel, John W. Dean III.

The role given to St. Clair makes it clear that he is subject to the control of the committee and has no independent right to be present.

The Constitution gives the House the sole right of impeachment, but historically counsel for the subject of the inquiry has been granted some opportunity to participate.

Rep. Robert W. Kastenmeier, D-Wis., chairman of the subcommittee which drafted the rules, said they were based on a desire to be fair to Nixon. Rep. Thomas F. Ricksback, R-Ill., ranking Republican on the subcommittee, praised the Democrats for their support, saying they had "learned over backward" to assure St. Clair's participation.

However, some Democrats said they felt the committee was being too generous. Rep. George E. Danielson, D-Calif., tried to eliminate St. Clair's right to raise objections, saying the committee was giving St. Clair the opportunity to turn what should be a fact-finding investigation into a full-scale trial.

But Rep. Robert F. Drinan, D-Mass., citing past impeachment proceedings in which counsel for the person under investigation was allowed to take part, said "it is better to let St. Clair become the 39th member of the committee than to deny him his procedural rights."

4 Suspects Freed In Zebra Probe

SAN FRANCISCO (AP) — Four of seven men arrested in connection with a wave of "Zebra" murders here have been freed for lack of evidence, police say.

Police Sgt. William Kearny iden-

tified those freed Thursday night as Thomas Manney, 31, a star football player at San Francisco State University in the early 1960s; Clarence Jamerson, 37; Dwight Stallings, 28; and Edgar Burton, 22.

They had been booked for investigation of conspiracy to commit murder.

Kearny said the four were released because it became evident "during the course of the investigation that no further procedures against them are feasible at this time."

He said Chief of Inspectors Charles Barca planned a news conference on the matter today.

But formal murder and other charges had been filed against the three other men still in custody—Larry C. Green, 22; J.C. Simon, 29; and Manuel Moore, 29, police said. They are to appear Monday before a county grand jury.

The new developments were disclosed as Mayor Joseph L. Alioto was en route to Washington, D.C., to consult with U.S. Atty. Gen. William B. Saxbe on his theory that an organization called "Death Angels" was linked to some 80 killings in California.

Alioto says those 80 killings include 12 murders in a six-month period here in a case San Francisco police have code-named "Zebra" after a com-

munications channel. Six other persons were wounded.

All of the "Zebra" victims were white. They were shot down in apparent unprovoked attacks by young blacks, police say.

Green was charged in connection with a case not listed by police as part of the "Zebra" file, the Oct. 20 kidnapping and decapitation of Mrs. Quita Hague, 28. Also charged in that case was Jesse Lee Cooks, now serving a life sentence for murder.

Green and Cooks are charged with conspiracy to commit murder, murder, kidnapping, armed robbery and assault with a deadly weapon, Chief Asst. District Atty. Walter Giubbini said.

Police say Mrs. Hague was beheaded with a machete-like weapon and her husband, Richard, 30, savagely beaten and slashed in the attack. They were forced into a white van as they walked near their Telegraph Hill home, police said.

Moore and Simon are accused of shooting down Jane Holley on Jan. 28 as she removed clothes from a washer at a downtown laundromat and slaying Alario Bertuccio, 81, with gunfire as he walked home from work on Dec. 20.

Moore also is charged with shooting Terry White, 15, and Ward Anderson, 18, at a San Francisco bus stop on April 14. Both teen-agers survived.

Police had listed all four victims as targets of "Zebra" attacks.

for publication of numerous "false, defamatory and libelous statements concerning the plaintiffs, tending to subject them to public hatred and contempt..."

The industry said Metzenbaum, in radio and television campaign commercials, had used statements to the effect that the marketers of petroleum products had "raped the public."

"Defendant, as a member of the United States Senate, well knew that the prices of petroleum products are controlled by the federal government and that the price of said products from refiner to service station operator is established by the United States government and not by the seller of said products," the industry argued.

The Standard Oil Co. of Ohio has been a main target of Metzenbaum's criticism. The senator earlier this week asked the Federal Energy Office to investigate a 6-cent per gallon gasoline price hike ordered by Sohio.

Metzenbaum, however, has blamed the entire industry for rising fuel costs and the energy crises.

The OPMA members are independent businessmen who purchase their products from the major oil companies and resell them to retail service station dealers and other retailers of petroleum products.

At a news conference, Roger F. Dreyer, executive vice president of the OPMA, said there were "no political motives" behind the lawsuit.

"He accused us of rape on television," Dreyer added.

Dreyer said the OPMA office here had been swamped by telephone calls from irate members as a result of Metzenbaum's attacks on television and in the press.

Metzenbaum's news secretary, John Esposito, said, "I would point out that Mr. Roger Dreyer, who is director of the petroleum marketers, is a financial contributor to John Glenn's campaign. I don't really know enough about the suit to comment at the moment."

"Certainly, every citizen of Ohio has evidence to back up the claim made in April," Esposito said.

"I think this may shed some light on why Mr. Glenn has been reluctant to attack oil companies," Esposito said.

Glenn is Metzenbaum's opponent for the Democratic nomination.

Frost Nips Midsection Of Nation

By THE ASSOCIATED PRESS
Frost nipped parts of the nation's midsection today, while high winds whistled across the Plains.

A cold front moved into the upper Great Lakes region, the middle Mississippi Valley and the central Plains and sent the mercury below freezing in parts of the north-central states.

Winds gusted to 73 m.p.h. at Yankton, S.D., and hit 59 m.p.h. at Hill City, Kan., and 45 m.p.h. at Kansas City.

Scattered showers and thunderstorms continued to dampen the central Plains and upper Great Lakes, and drizzle misting over the Ohio Valley turned to light rain from the Appalachians to the Middle Atlantic Coast.

Occasional thundershowers also soaked parts of the Gulf Coast. A chartered bus skidded off Interstate 75 during a rainstorm Thursday night near Cassville, Ga., injuring a dozen persons in a school group returning home to Michigan from Disney World. None was hurt seriously.

Most of the Pacific Coast was under clouds, but clear skies prevailed in the Plateau, the Rockies, Northern and Southern Plains and New England.

NEW YORK (AP) The stock market pulled back today in the face of signs that upward pressure on interest rates was continuing.

The noon Dow Jones average of 30 industrials was down 3.83 at 847.23, and declines outnumbered advances by more than 2 to 1 on the New York Stock Exchange. Trading was light.

Analysts said investors were disappointed at figures from the Federal Reserve which showed continued strong demand for loans at major New York banks, despite the present high cost of borrowing.

British Petroleum, down 1/4 at 12 1/2, was the Big Board's most active stock.

On the American Stock Exchange, the market value index was down .35 at 90.34.

Vocational School Is 75 Per Cent Complete

An architect's report to the Pickaway-Ross Joint Vocational School Board at last night's meeting stated that the new school was 75 per cent completed. The construction schedule is running smoothly except for some delay in blacktopping. Because of a material problem, the completion of the blacktopping will be delayed later than originally anticipated.

The auxiliary building is out on bids at present. The architect reported to the board that several contractors have expressed interest in the job.

Nothing has changed to alleviate the water problem. The contractor is still in the process of drilling a well. An attorney representing the water company is in the process of drawing up an agreement for an emergency tap into the company lines.

No recommendations for staff members were made at last evening's meeting. Six staff members have been employed during the past month. Of this number, four will be filling teaching vacancies, one supervisor position and one librarian.

Equipment as follows was approved for purchase by the board for the child care department: Beckley-Cardy, \$236.07; Community Play Things Inc., \$1,130.30; J. R. Holcomb Co., \$772.18;

Child Craft Education Corp., \$2,940.50.

Horticulture equipment in the amount of \$591.53 was approved for purchase from the E. C. Geiger Co., and \$3,715.52 from the A. M. Leonard and Son Inc.

Ralph Neal, director of the vocational school, is currently in the hospital for surgery. No report was available to the board concerning the length of his absence.

Coordinator of Guidance Ray Pack reported to the board on enrollment progress. Over 600 students are now registered for this fall. Pack further reported that one of the programs remains unfilled. That program is drafting. Plans to develop future interest in that area were discussed. Drafting is considered more difficult by prospective students than other programs but has very good job opportunities.

Superintendent Paul Hydel reported that applications are now being received for custodial and cafeteria positions. Hydel explained to the board that cafeteria workers will also be acting as teachers' aides as they will help with the teaching in the food service department.

The board adjourned with a resolution to meet again in regular session on May 16.

Detroit Policeman Credited With Breaking Big Drug Ring

DETROIT (AP) — During his eight months in the dope racket, Vincent Mazzara was known to his drug friends as a fast wheeler-dealer who spent thousands of dollars on heroin and cocaine.

That image was shattered when federal and local authorities broke a dope ring and confiscated an estimated \$6 million in drugs on information supplied by Mazzara—a Detroit police officer.

Mazzara's role in the recovery of 13 1/2 pounds of heroin and four pounds of cocaine—largest in the city's history—was told Thursday by The Detroit News.

"It's hard to think that it's over," Mazzara, 24, said of an undercover life during which he was threatened with death several times. He refused to carry a gun because it might have revealed his true role.

"I wanted to stay as far removed from being identified as a police officer as I possibly could," he said.

Mazzara, on the Detroit force just three years, said he learned to change his character roles and attitudes as he rapidly moved up in the drug world during his assignment.

He first pretended to be a hippie, sporting a woolly hairdo and a pierced ear. Then to show his drug associates he was improving his life style, he traded in his faded jeans and earring for expensive clothes, styled coiffure, trimmed mustache and flashy sports car.

His ruse was so convincing that one dealer Mazzara worked with cried in disbelief when he was arrested during a roundup of suspects Tuesday night, the newspaper said.

Mazzara said he had himself arrested last August during a raid on a drug hangout and then began to work his way up the ladder as a drug dealer. He said he increased his drug buys from \$200 a shot to \$1,000 and once

flushed \$50,000 in cash to make a \$6,000 purchase.

He said that at one point, a contact told him: "You're moving too fast now, man. I wouldn't give you a nickel that you'll live six months."

However, Mazzara said he continued to make bigger and bigger buys and eventually became a close associate of some of Detroit's principal dope dealers.

Mazzara's deals and wiretaps of the top peddlers also led federal agents to major dealers in New York and Texas, law enforcement officers said.

Asked why he took the assignment, Mazzara said, "I guess it's just a lot of ambition. I wanted to be the best."

ignore his primary election opponents and concentrated on Democratic Gov. John Gilligan's administration.

Campaigning in Cincinnati, Rhodes said 8,500 employees hired under Gilligan account for an expenditure of \$85 million to \$100 million annually.

"If the level of waste and mismanagement in the present administration continues," Rhodes said, "the present governor will have to raise the income tax just to keep even."

Rhodes said if the average income tax paid by Ohio families is \$400 a year and the average state employee cost is \$10,000, "it takes 25 families to pay one additional state employee."

Gilligan's news secretary, Robert Tenenbaum, said "the average tax liability for a family earning \$10,000 with three children is \$53."

He said Rhodes "has to be held accountable for saying those things and spouting off figures that are totally unrealistic."

Bert Dawson Jr. of East Liverpool, also seeking the GOP gubernatorial nomination, told newsmen in Columbus he had rejected a suggestion from an unnamed representative of Fry to drop out of the race.

Dawson said his platform planks are: creating a state-level review of public education financing, earmarking state lottery proceeds for mass transportation, increasing gasoline taxes to help restore Ohio's dormant highway construction program and reconstituting the makeup of the Ohio Environmental Protection Agency.

Gilligan's opponent for the Democratic nomination, James D. Nolan of Cleveland, told a Shaker Heights gathering he had saved taxpayers several thousand dollars by challenging Gilligan's use of a state airplane for political campaigning.

"It wasn't until I called a halt to this waste of state money that Mr. Gilligan said his campaign committee would reimburse the state for the plane's use," Nolan said.

He contended Ohio Democrats are faced with defeat if Gilligan is the standard bearer in November.

Nolan said he was asking for equal time from radio stations that have used any "announcements . . . concerning state operations since Feb. 6, 1974."

He claimed the broadcasting of films produced at state expense constituted a political contribution in violation of Ohio tax laws.

Jury Returns Three Guilty Verdicts

A jury of 12 returned three verdicts of guilty yesterday afternoon against Luther Harris, Columbus. Harris was indicted by the third session of the January Grand Jury for two counts of aggravated burglary and one count of grand theft. He has been on trail for these charges since Monday morning.

Defense for Harris centered his case around an alibi saying he was at his sister's house shortly after the crime was committed. Both Harris's wife, Dinah Harris and his sister, Constance Groce testified in open court to the alibi.

Harris was represented by Thomas Tyack of a Columbus law firm.

The two break-ins at the Juanita Fields residence at Lockbourne occurred at about 8:30 p.m. on Jan. 26. Harris's wife testified he was with her from late in the afternoon until 2 a.m. the next morning when they left the Groce house.

A girl who had been living with Harris has appeared in juvenile court on similar charges and implicated him in the crime. Harris's car was seen at the Fields' house.

Sentencing will be delayed until a later date.

Two Cited In Accidents

Pickaway County Sheriff's Deputies investigated two accidents Thursday resulting in two persons receiving citations.

Ralph Roush, 35, Route 5, was cited for speed excessive for road conditions, when the car he was driving went off the right side of the road, 5:45 p.m. Thursday.

Traveling west on State Route 56, Roush lost control of the vehicle going off the right side of road into a ditch.

Deputy Lawrence Holt investigated the accident.

Fifty-one-year-old Luther Davidson, Columbus, was cited, by Deputy James Fite, for driving while intoxicated, when he was involved in a single-car accident 2:50 p.m. Thursday.

Davidson was driving south on the Circleville-Lockbourne Road when he went off the right side of the road.

No injuries were reported in either of the accidents.

Markets

NEW YORK (AP) The stock market pulled back today in the face of signs that upward pressure on interest rates was continuing.

The noon Dow Jones average of 30 industrials was down 3.83 at 847.23, and declines outnumbered advances by more than 2 to 1 on the New York Stock Exchange. Trading was light.

Analysts said investors were disappointed at figures from the Federal Reserve which showed continued strong demand for loans at major New York banks, despite the present high cost of borrowing.

British Petroleum, down 1/4 at 12 1/2, was the Big Board's most active stock.

On the American Stock Exchange, the market value index was down .35 at 90.34.

Detroit Policeman Credited With Breaking Big Drug Ring

DETROIT (AP) — During his eight months in the dope racket, Vincent Mazzara was known to his drug friends as a fast wheeler-dealer who spent thousands of dollars on heroin and cocaine.

That image was shattered when federal and local authorities broke a dope ring and confiscated an estimated \$6 million in drugs on information supplied by Mazzara—a Detroit police officer.

Mazzara's role in the recovery of 13 1/2 pounds of heroin and four pounds of cocaine—largest in the city's history—was told Thursday by The Detroit News.

"It's hard to think that it's over," Mazzara said, of an undercover life during which he was threatened with death several times. He refused to carry a gun because it might have revealed his true role.

"I wanted to stay as far removed from being identified as a police officer as I possibly could," he said.

Mazzara, on the Detroit force just three years, said he learned to change his character roles and attitudes as he rapidly moved up in the drug world during his assignment.

He first pretended to be a hippie, sporting a woolly hairdo and a pierced ear. Then to show his drug associates he was improving his life style, he traded in his faded jeans and earring for expensive clothes, styled coiffure, trimmed mustache and flashy sports car.

His rise was so convincing that one dealer Mazzara worked with cried in disbelief when he was arrested during a roundup of suspects Tuesday night, the newspaper said.

Mazzara said he had himself arrested last August during a raid on a drug hangout and then began to work his way up the ladder as a drug dealer. He said he increased his drug buys from \$200 a shot to \$1,000 and once

flashed \$50,000 in cash to make a \$6,000 purchase.

He said that at one point, a contact told him: "You're moving too fast now, man. I wouldn't give you a nickel that you'll live six months."

However, Mazzara said he continued to make bigger and bigger buys and eventually became a close associate of some of Detroit's principal dope dealers.

Mazzara's deals and wiretaps of the top peddlers also led federal agents to major dealers in New York and Texas, law enforcement officers said.

Asked why he took the assignment, Mazzara said, "I guess it's just a lot of ambition. I wanted to be the best."

ignore his primary election opponents and concentrated on Democratic Gov. John Gilligan's administration.

Campaigning in Cincinnati, Rhodes said 8,500 employees hired under Gilligan account for an expenditure of \$5 million to \$10 million annually.

"If the level of waste and mismanagement in the present administration continues," Rhodes said, "the present governor will have to raise the income tax just to keep even."

Rhodes said if the average income tax paid by Ohio families is \$400 a year and the average state employee cost is \$10,000, "it takes 25 families to pay one additional state employee."

Gilligan's news secretary, Robert Tenenbaum, said "the average tax liability for a family earning \$10,000 with three children is \$53."

He said Rhodes "has to be held accountable for saying those things and spouting off figures that are totally unrealistic."

Bert Dawson Jr. of East Liverpool, also seeking the GOP gubernatorial nomination, told newsmen in Columbus he had rejected a suggestion from an unnamed representative of Fry to drop out of the race.

Dawson said his platform planks are: creating a state-level review of public education financing, earmarking state lottery proceeds for mass transportation, increasing gasoline taxes to help restore Ohio's dormant highway construction program and reconstituting the makeup of the Ohio Environmental Protection Agency.

Gilligan's opponent for the Democratic nomination, James D. Nolan of Cleveland, told a Shaker Heights gathering he had saved taxpayers several thousand dollars by challenging Gilligan's use of a state airplane for political campaigning.

"It wasn't until I called a halt to this waste of state money that Mr. Gilligan's campaign committee would reimburse the state for the plane's use," Nolan said.

He contended Ohio Democrats are faced with defeat if Gilligan is the standard bearer in November.

Nolan said he was asking for equal time from radio stations that have used any "announcements . . . concerning state operations since Feb. 6, 1974."

He claimed the broadcasting of films produced at state expense constituted a political contribution in violation of Ohio tax laws.

Jury Returns Three Guilty Verdicts

A jury of 12 returned three verdicts of guilty yesterday afternoon against Luther Harris, Columbus. Harris was indicted by the third session of the January Grand Jury for two counts of aggravated burglary and one count of grand theft. He has been on trail for these charges since Monday morning.

Defense for Harris centered his case around an alibi saying he was at his sister's house shortly after the crime was committed. Both Harris's wife, Dinah Harris and his sister, Constance Groce testified in open court to the alibi.

Harris was represented by Thomas Tyack of a Columbus law firm.

The two break-ins at the Juanita Fields residence at Lockbourne occurred at about 8:30 p.m. on Jan. 26. Harris's wife testified he was with her from late in the afternoon until 2 a.m. the next morning when they left the Groce house.

A girl who had been living with Harris has appeared in juvenile court on similar charges and implicated him in the crime. Harris's car was seen at the Fields' house.

Sentencing will be delayed until a later date.

Two Cited In Accidents

Traveling west on State Route 56, Roush lost control of the vehicle going off the right side of road into a ditch.

Deputy Lawrence Holt investigated the accident.

Fifty-one-year-old Luther Davidson, Columbus, was cited, by Deputy James Fite, for driving while intoxicated, when he was involved in a single-car accident 2:50 p.m. Thursday.

Davidson was driving south on the Circleville-Lockbourne Road when he went off the right side of the road.

No injuries were reported in either of the accidents.

A Page Of Opinion

Giant Heat Pump

Much of the discussion and physical work involved in searching for new sources of energy naturally centers on today's conventional producers: oil, coal and nuclear power. But there are other means of producing energy, and with any breaks at all some of them could make surprising gains in the future.

Solar, thermal and tidal energies are some of the others mentioned, and some

advances have been made by at least the first two. Another source — the temperature differences between oceans — is about to undergo its first realistic look.

If that seems like a somewhat bizarre source of energy, one estimate is that the Gulf Stream flowing through the Florida Straits carries enough heat to produce all the electricity needed in the United States, if it could be

harnessed.

The National Science Foundation is underwriting a multi-million dollar study of the possibilities, including two conceptual designs for oceanic power plants. That is only the first stage, but there are many first stages underway in the energy field. The potential among them for coming up with significant innovations is limited largely by man's knowledge of his environment.

U.S. Printing Inflation

Anyone who is on the mailing list of the Government Printing Office has to be amazed by the voluminous outpouring of pamphlets, reports and books by one of the federal government's main information outlets to the public. Not only is the GPO the world's largest publishing house, but some of its offerings have been best sellers for years and almost all have been

low priced.

That latter part is changing. By law, the GPO has to operate in the black. Like costs in other businesses, the costs of the printing office have been rising rapidly. Labor and paper costs have taken large jumps in the last three years.

Among the larger cost increases is postage. Largely a mail order organization, the

GPO formerly operated with much of its postage costs subsidized by the Post Office. Now, like other government agencies, it is supposed to pay its own postage bill.

That bill has gone from \$2 million to \$14 million a year, good news to postal officials but bad to consumers who have found some interesting reading among the GPO miscellany.

New Rules For TV Football

ON THE LINE
By BOB CONSIDINE

NEW YORK, May 1 — People ... Places ...

Now that nine new rules have been adopted by the National Football League to make the mayhem more palatable, the least the millions who make a ritual of watching the games on television should do is revise their own rules.

For starters, they should pledge to drink no more than a dozen six-packs of beer during each weekend this coming season. Also, they should volunteer or be forced to fetch every other six-pack themselves, instead of demanding that the wife and kids attend to such needs.

They should agree to empty their ashtrays after every fourth hour of viewing. And lift up their feet when the poor wife tries to run the vacuum cleaner on the rug beneath their slippers. They should also be ordered to let the kids turn to "Sesame Street." At least twice during the season, even though it means tuning out the re-run of Howard Cosell debating Dick Young on the right of Tuffy Leemans to enter the Pro Football Hall of Fame at Canton, O.

TV football addicts would be penalized, under the new rules for a long list of infractions. Any slob who won't let his wife watch Marshal Dillon on Monday nights will be forced to buy a new set and watch his game in a broom closet. The bum who yells for his breakfast, lunch and dinner to be served to him on his lap, on Super Bowl Sunday, should have same rubbed in his scalp.

Violators of the no-yelling and screaming clause, which will be in effect when the baby is trying to take a nap, will be denied the opportunity to watch all replays in slow motion from the Goodyear Blimp.

The world's most expensive prisoner, Rudolf Hess, is about as much of a menace to society as, let's say, the golf balls Alan Shepard left on the moon. But, once again, the Russians have refused to spring him from West Berlin's Spandau Prison. There was some thought that he might be pardoned or paroled on his 80th birthday last week, but the Russians —

who have as much to say (and pay) about Hess — said what they've been saying since 1945: "Nyet."

The cost of keeping the ghastly old prison functioning for just one prisoner is said to run in the neighborhood of \$300,000 a year. Probably much more. The guardianship of Hess rotates every month among U.S., British, French and Russian troop groups. This is the sole remaining teamwork engaged in by military units of the bloody, incredibly costly Allied victory over Hitler.

Jimmy Durante, 81 and ailing from a stroke, doesn't have too much to say these days. But when he says it — as he

proved at the recent Banshees luncheon at the Waldorf — it brings back fond memories of livelier days (and nights) in his long years in show biz.

The other night at the Waldorf he surprised a phone operator by personally putting in a call for the morning. He spoke very slowly but made his message clear. The operator assured him that she'd see that he was called right on time, and wished him well.

She was about to switch away when she realized that Jimmy was trying to say something else. Which he was. He was saying, ever so warmly, "Good-night, Mrs. Calabash, wherever you are."

NEW YORK (AP) — Accustomed to bad news, food shoppers are likely to be elated over the news that farm prices continued to fall during the month ended April 15.

But now the bad news: More of your food dollar in recent weeks is going to pay the cost of bringing that food from farm to market. The Food Institute, which represents all segments of the industry, reports:

"Out of each dollar consumers have been spending for food in recent months, more and more is going for the cost of assembling, processing, transporting and distributing food produced on farms."

The increase in marketing costs became noticeable last October and has continued since then. Agriculture Department figures show the spread between farm value and retail cost rose 5.2 per cent from February to March.

In January, The Food Institute notes, consumers paid \$1.43 a pound for certain choice beef, of which 96.9 cents went to the farmer, leaving 46.1 cents for marketing costs.

In March, when similar beef was priced at \$1.42 a pound, only 86 cents

went to the farmer and 56.2 cents was absorbed by marketing costs.

In this same period wide spreads also were noted for oilseeds, bakery and cereal products and fresh vegetables, but spreads for poultry and eggs decreased.

If the trend continues there is some question of whether the latest 6 per cent decrease in farm prices will arrive in consumer outlets — or, so far as the good buyer is concerned, disappear into middleman bookkeeping.

Only three major industrialized nations can boast that food costs their citizens less than 20 per cent of after-tax income. The United States, Australia and Denmark all report percentages near or just under that figure.

By contrast, some countries report percentages above 30 per cent. Sweden, Spain and Finland are in that category, and Italy isn't far below it. But that doesn't mean that individual bargains are similarly distributed.

Based on Agriculture Department figures compiled last September, a sirloin steak cost \$4.04 in Denmark but only 69 cents in Argentina. In the United States the comparable price was \$2.29.

In the United Kingdom, where one-quarter of takehome pay goes for food, a pound of butter sold for only 51 cents, compared with 95 cents in the United States.

Wiretap Record Poor

WASHINGTON (AP) — Fewer than half of the government wiretaps and bugs deployed in 1973 have led so far to the arrest of criminal suspects, according to a new statistical report.

The figures show that federal officials are turning away from eavesdropping while their state and local counterparts are embracing it more enthusiastically and generally with better—or at least quicker—results.

Those conclusions emerged from the compilation of court-authorized wiretaps and bugs prepared for Congress annually by the Administrative Office of U.S. Courts.

The report, made public Wednesday, is based on figures supplied by judges and prosecutors.

According to the report, there were 812 taps and bugs installed in 1973, the bulk of them in investigations of gambling and narcotics cases.

Speaking Of Your Health

by Lester L. Coleman, M.D.

I want to share with you two letters from my readers.

The first, from Rev. H.A.P. in Ohio, reads, "An item in your column said that a lady was able to stop leg cramps by holding her nose. I have had this problem for a long time. Not many nights after reading this I had an opportunity to try it. It worked in a matter of seconds. I want to thank you and the lady who suggested this easy remedy for sharing it with us."

Another letter, from Mr. N.M.S., in Florida: "I have been suffering for years with painful canker sores. I finally realized that I had been drinking too much coffee. I replaced coffee, except for one cup to start the day, with buttermilk. Since then I have had no more canker sores of the mouth."

It is most gratifying to receive letters like these. They reflect a spirit of wanting to share with other readers unusual experiences that can be mutually beneficial.

Are tranquilizing drugs and anti-depressants addictive? I have been taking them for nine years and would like to stop now that I have my life in order.

I have been taking the following drugs, but I am afraid to stop taking

them on my own. ...

Mrs. M.B., Mich.

Dear Mrs. B.:

The drugs you mentioned are ones that most certainly cause dependency, if not outright addiction.

Nine years is a long time to take drugs of this nature without interruption.

Now that your life is "in order," it is time for you to set out on a program of releasing yourself from the bondage of your dependency.

With substitute drugs which, too, can be tapered off, and psychological support it should not be difficult for you to break this dependency.

Are sulfa drugs classed as antibiotics?

Miss A.T., R.I.

Dear Miss T.:

Sulfonamides (sulfa) are synthetic chemicals which were found to be very effective in combatting some forms of bacteria.

Antibiotics are chemical substances that are produced by living microorganisms.

Both sulfa drugs and the antibiotics have an antibacterial function. The choice of one or the other depends on the nature of the bacteria that has invaded the body.

By JIM BISHOP

What Happened?

The high hotel window looked down on San Francisco. The buildings, even the windows, seemed to have been scrubbed clean by the Pacific breeze. The streets fled in swoops, like old roller coasters. An inbound freighter traced a dark stain on the blue sky.

"Let's call Harry Singer," I said, looking out. My wife was unpacking. "Who's that?" It is painful to discuss people before her time. "We grew up together," I said. She said, "Oh," and found a hanger for one of my jackets.

"Oh," translated, is disinterest. Harry Singer meant nothing to her. Nor would she enthuse about two middle-aged men remembering all the idiocies of adolescence. "Oh," I looked him up in the phone book. There were three, but only one near San Mateo.

I dialed. My wife said, "Dinner?" hoping I would say no. "Dinner," I said. "He's the oldest buddy I have." A woman answered. Her voice had the pained monotony of time.

"Harry is at the ball game," she said. "Who did you say this is?" I told her. The voice came alive. "Oh," she said, "Harry told me about you. You're the writer feller—right?" I asked if she and Harry could meet us at our room in the Fairmount Hotel at eight. Dinner, I said.

"Why sure," she said. "We aren't going anywhere. What's the room number?" Casually, I asked how many children they had. None. "He's retired, you know," she said. "I didn't. 'I send him to the ball game in the afternoon and I play bingo at night.' I was silent. 'The excitement kills me,' she said, and laughed.

I thought about Harry all day. When we were 15, and on up to age 25, we were closer than brothers. Things I couldn't confide to my parents, I told Harry.

He was a brain. A born brain. He could outthink, outwit the whole gang, and they included some pretty bright characters. Harry was tall and skinny, a flashy dresser who squeezed his acne pimples. He was mad about girls, but he couldn't dance, nor could he understand that one kiss does not imply complete surrender.

His school marks in college were phenomenal. She scorned study; Harry glanced at books and paid more attention to his Paul Whiteman and Jan Garber records. His straight A's were monotonous. Professors cultivated Harry and urged him to become a trial lawyer, an engineer, a physician.

My admiration for Harry Singer was everlasting. He moved west when he was 25, and that was a long, long time ago. His memory was never far away. I know that someday I would read

about Harry—maybe as the inventor of an anti-gravity substance which would keep planes in the sky forever.

Or a scientist in a white coat who would hold a vial aloft and say, "Here it is, gentlemen. A cure for cancer." Or as guest speaker at the United Nations, the only man to have devised a formula for permanent peace. I was happy he didn't want to be a writer. He would have made me look bad.

"It's eight o'clock," Kelly said, sitting on the bed. She wore a long pink gown; the earrings and pendant flashed as diamonds should. "He'll be here," I said, tightening the knot in a striped tie.

It got to be 8:30. "Some friend," she said. I dialed his phone. Eight rings and no answer. At 8:40, there was a timid knock on the door. I hurried through the foyer and put on my Sunday smile.

An old lady stood outside in the hall. Her feet were apart, as though bracing herself. "Mr. Bishop," she said very slowly, very distinctly, "I'm Mrs. Harry Singer." I grabbed her hand. "Where's Harry?" I said.

She pointed. I looked down the hall. A bald stranger was leaning against the wall, eyes shut against the whirling of the corridor. "Hey!" I yelled. "Harry!" he looked up, grinning. "Jimmo," he mumbled, and began to sag toward the floor.

We got him into the room, Mrs. Singer and I. Kelly wrung her hands and glared at me. "Jimmo," he mumbled, as I eased him onto a bed and loosened his tie.

In a few moments, he was snoring. "What happened?" I said. Mrs. Singer shrugged. "He was sober coming home from the ball game. Then I told him you called, and he went into the kitchen and began to drink."

We sat around the body for two hours. Mrs. Singer was drunk and articulate. Her Harry had retired as a foreman in an assembly plant. Whenever my name came up, she said, "He couldn't understand your success as a writer. Said you were—excuse me—a dope."

"So tonight he wanted to see you, but he couldn't face it I guess. He said you were the only one who appreciated his brilliance. Maybe he didn't want you to ask him what happened."

Giant Heat Pump

Much of the discussion and physical work involved in searching for new sources of energy naturally centers on today's conventional producers: oil, coal and nuclear power. But there are other means of producing energy, and with any breaks at all some of them could make surprising gains in the future.

VOTERS —

Do you want more taxes? If Jim Rhodes is nominated and elected you will probably get both. When he ran for governor in 1966 his campaign foundation was built on "no new or increased taxes." You got more and more and new taxes and no relief of real estate taxes.

When governor he was one of the biggest spenders we ever had. He raced all over the country like a wild man apparently promoting himself for President at your expense. More taxes were needed.

If you want a man who made no effort for Barry Goldwater over Lyndon Johnson in 1964, vote for Jim Rhodes. But why should he help Goldwater win in 1964 if he, himself, planned in sealing the nomination in 1968? Had Goldwater won in 1964 he would have been in the way of Rhodes in 1968 when seeking a second term. Goldwater lost. This left an open field for Rhodes when seeking the nomination in 1968, and he ran.

If you want a man who, at the governors conventions, toasted and supported President Johnson on the foolish appeasement Vietnam policy, vote for Jim Rhodes.

I was in the Ohio Legislature in 1932 to 1938. Rhodes was a page in the House about 1935. I had an experience with him in 1960 when he was State Auditor that left me with the feeling that he did not always insist on honesty in certain cases. I have followed his record since then and have no confidence in him what-so-ever and, under no condition would I ever vote for him.

Religion Could Link Jews, Arabs

NEW YORK (AP) — The spiritual leader of the world's three million Sephardic Jews, Israel's chief Rabbi Ovadis Yossef, says Jews and Arabs once worked together in friendship and have the shared background for doing so again.

"There is a definite potential for both cultures to come together and flower together, once the political questions are settled," he said in an interview.

Rabbi Yossef, 54, one of two Israeli chief rabbis and the foremost leader of Jews with ancestries in countries bordering on the Mediterranean, said those Jews particularly have common cultural roots with Arabs.

"There's a greater rapport between them," he said. He added that unfortunately few Sephardic Jews are among Israel's top government officers, although they would be better able to communicate with Arabs on a basis of mutual background.

Recalling his own four years as head of a rabbinical court in Egypt before the first Arab-Israeli fighting, he said that in that period the Jewish community there took full part in Egyptian civic functions.

"That's how it could be and how it ought to be," he said.

Noting that both Arabs and Jews are of Semitic stock, their lineage traced back to two Biblical brothers — the Arabs to Ishmael and the Jews to Isaac — Rabbi Yossef said:

"That makes us cousins, and we've got a common grandfather, Abraham."

The branch of Judaism which Rabbi Yossef leads, Sephardim, is a Hebrew word literally meaning "Jews from Spain," but it also includes those from other Mediterranean areas, including predominantly Moslem lands of Syria, Turkey, Lebanon, Egypt, Iraq, Iran and Algeria.

The Jewish communities in those areas have shrunk sharply, most of them moving to Israel. Rabbi Yossef himself was born in Bagdad, Iraq, and his wife in Syria. Both know Arabic.

He pointed out that one of the most influential Jewish philosophers since Bible times, Spanish-born Maimonides who codified Jewish law in the 12th century, wrote in eloquent Arabic and his thought remains influential in Arabic culture.

"There's room for that kind of interchange," he said.

Rabbi Yossef, a gracious, bearded man in an embroidered robe and puffed beret that are part of the more

elaborate Sepharic liturgy, was in this country for a round of visits before returning this week to Israel.

Although Sephardic Judaism is a

distinct minority of the world's 14 million Jews — of whom about 11 million are of Ashkenazim (northern European) background — Sephardic

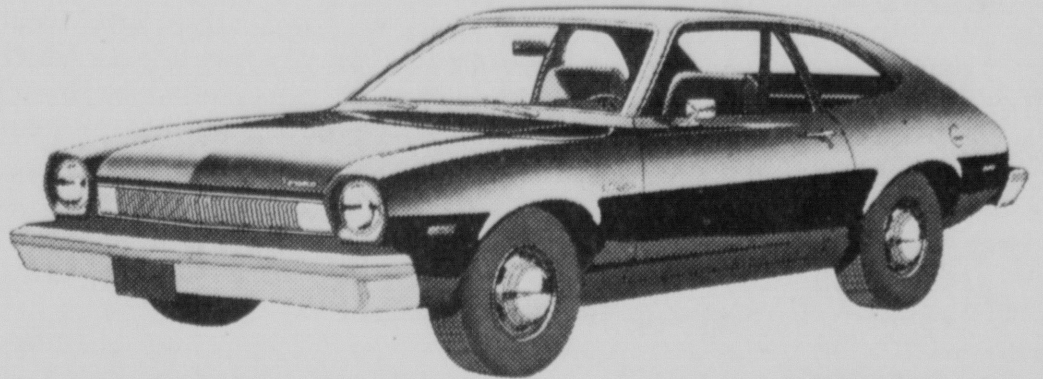

Jews total 1.5 million in Israel, half the population.

There are only about 200,000 of them among the 5.8 million American Jews.

Global Alert Out For Stolen Art

LONDON (AP) — What do you do with 19 masterpieces worth about \$20.4 million, that you stole in the world's greatest art robbery?

One thing's for sure — you can't sell them for anything like their market value. At least not openly.

Right now, those 19 paintings are possibly the hottest chunk of stolen property in the world. Art dealers and police around the globe have been alerted to watch out for them.

It poses a problem for police in Ireland investigating the raid last weekend by an armed gang on the collection of gold and diamond millionaire Sir Alfred Beit.

So far, the gang that pillaged Beit's mansion near Dublin April 26 has made no ransom demands of any kind.

But some art experts and some police officers believe the robbery was politically motivated. Beit himself thinks the gang was out to make a killing by ransoming off the paintings for hard cash. And he's also said firmly he won't pay a cent if that is correct.

Stealing art treasures has been a lucrative business for centuries. But in these days of terrorism and revolutionary politics it has assumed a more sinister aspect.

Hugh Leggatt, a respected London art dealer and international art historian, said: "There are new motives behind these art thefts. In the old days, thefts were often insurance frauds. Now there are sociopolitical reasons and some form of blackmail is

likely."

There has been speculation the gang that raided Beit's County Wicklow mansion at Blessington, near Dublin, may be linked with the Irish Republican Army, an underground guerrilla movement fighting to unite the British-ruled province of Northern Ireland with the Irish republic to the south.

The gang of five, led by a French-speaking brunette, screamed revolutionary slogans, such as "capitalist pigs" at Beit, and accused him of exploiting the working class. This, the experts believe, indicated the raiders were probably motivated by something more than just personal gain.

In the last three or four years, according to police estimates, art treasures worth \$3 billion have been stolen.

Most law enforcement agencies agree the thieves these days are far more organized internationally and more knowledgeable about art than ever before.

And they are convinced that a lot of major works that vanish after they are stolen are sold to wealthy collectors who in the words of one dealer "lust" after paintings their riches can never buy legitimately.

However, some detectives suspect, no thief would be able to dispose of 19 famous masterpieces, even to shady collectors. This reasoning tends to back up the theory the Irish robbery was politically motivated.

Breakthrough Seen In Education Report

COLUMBUS, Ohio (AP) — The president of Ohio State University thinks a special higher education task force has made "a real breakthrough."

Dr. Harold Enarson commented Wednesday after Dr. Samuel Sava of Dayton, the task force chairman, and others who worked in a nine-month citizens' project discussed its 73-page report with newsmen.

"Ten or twenty years from now, I think we all will look back and say that this is the group that made a real breakthrough in higher education in this state," the OSU president told the

Associated Press.

Enarson, acknowledging that his praise should be considered along with the fact he served on the task force, mentioned aid to private institutions and expansion of evening and summer school curricula as being among the more important recommendations.

One of the widely-based citizens' task force recommendations called upon the legislature to provide grants to private colleges and universities ranging from \$200 to \$400 for each student attending school under Ohio's Instructional Grant program.

Each student whose family had a total annual income of less than \$7,999 would generate an institutional grant of the maximum \$400, while those with incomes above that figure would mean a \$200 grant.

"For the first time, we have a sort of detente between the public and private sectors. Hostilities and jealousies have been erased, and there now is a shared judgment about how we can help the private schools," Enarson said.

Another task force recommendation calls on the Board of Regents to come up "with incentives to make classes available" to adults and others unable to attend full time through the adoption of flexible schedules which permit classes to be offered beyond regular classroom hours — evenings, weekends and summers."

Enarson noted that in addition, the panel recommended a halt to the construction of new higher education campuses in the state and added: "You've now enough geographic access, you can reach every potential student." He said the universities now must concentrate on quality and "let everyone know we are not going to close our doors at five o'clock in the evening."

U.S. Steel Announces Price Hikes

PITTSBURGH, Pa. (AP) — U.S. Steel Corp., the nation's largest steel producer, announced today it will increase prices an average of 5.7 per cent on its total product line effective at midnight.

The increase will affect a broad range of steel products used in everything from automobiles to bobbie pins. No breakdown on prices was given by the company.

The steelmaker said the hikes cover only cost increases incurred since Jan. 31, including provisions in the new labor agreement which went into effect Wednesday.

"The increases are in line with those which would have been allowable under the previous Cost of Living Council rules," U.S. Steel said.

Federal wage-price controls expired at midnight Tuesday. During Phase 4 of the control program the steel industry was allowed price hikes of 9.2 per cent.

The announcement follows a 9.5 per cent price increase Wednesday by third-ranked National Steel on tin mill products used mostly in the manufacture of cans.

See Better Butter Price Outlook

WASHINGTON (AP) — Preliminary data coming in to the Agriculture Department for April dairy production indicate some easing of the price trends that have favored cheese and hurt butter for months, some analysts say.

Earlier this week, the Crop Reporting Board said that March butter production of 77.4 million pounds was 15 per cent below 1973 and the lowest amount in 28 years. American cheese production, on the other hand, was the highest on record and 27 per cent greater than in March 1973.

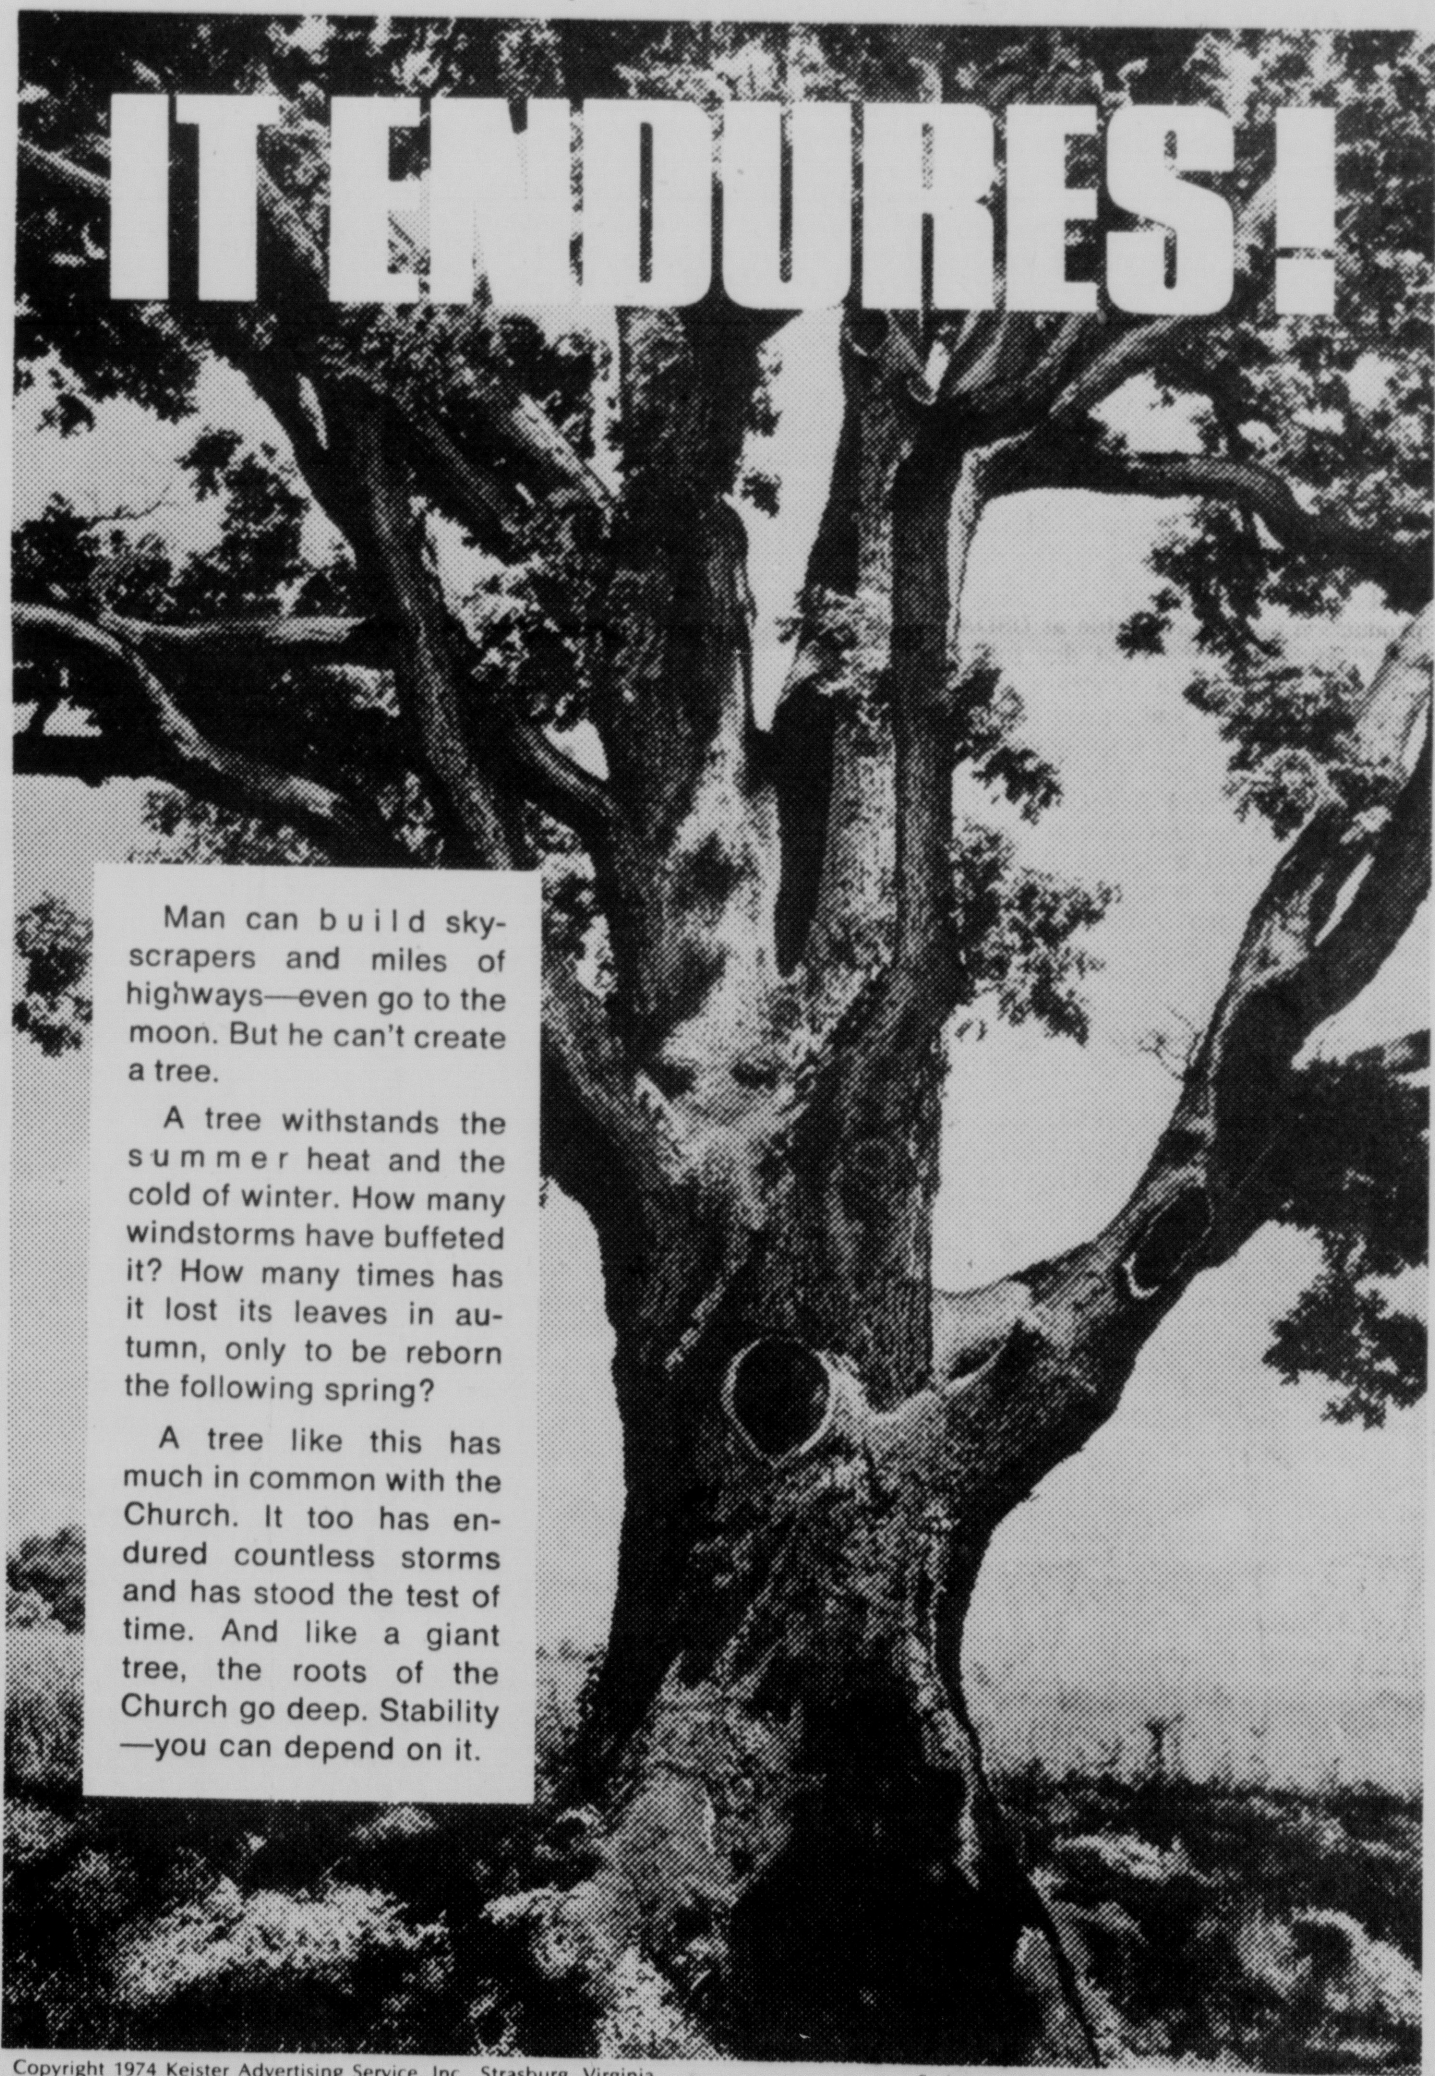

Furthermore, nonfat dry milk was off 21 per cent from the year before, and creamed cottage cheese production was down 19 per cent.

Production since February, however, had increased in virtually all categories. Prices in the major products all were in the neighborhood of 30 per cent above March 1973 levels.

The reports for the first two weeks of April, however, "did indicate some slowing in the increase in cheese production," one milk-market expert said Wednesday. At the same time, production of butter, the price of which has fallen back to support levels, still is declining but at a slower rate.

See Better Butter Price Outlook

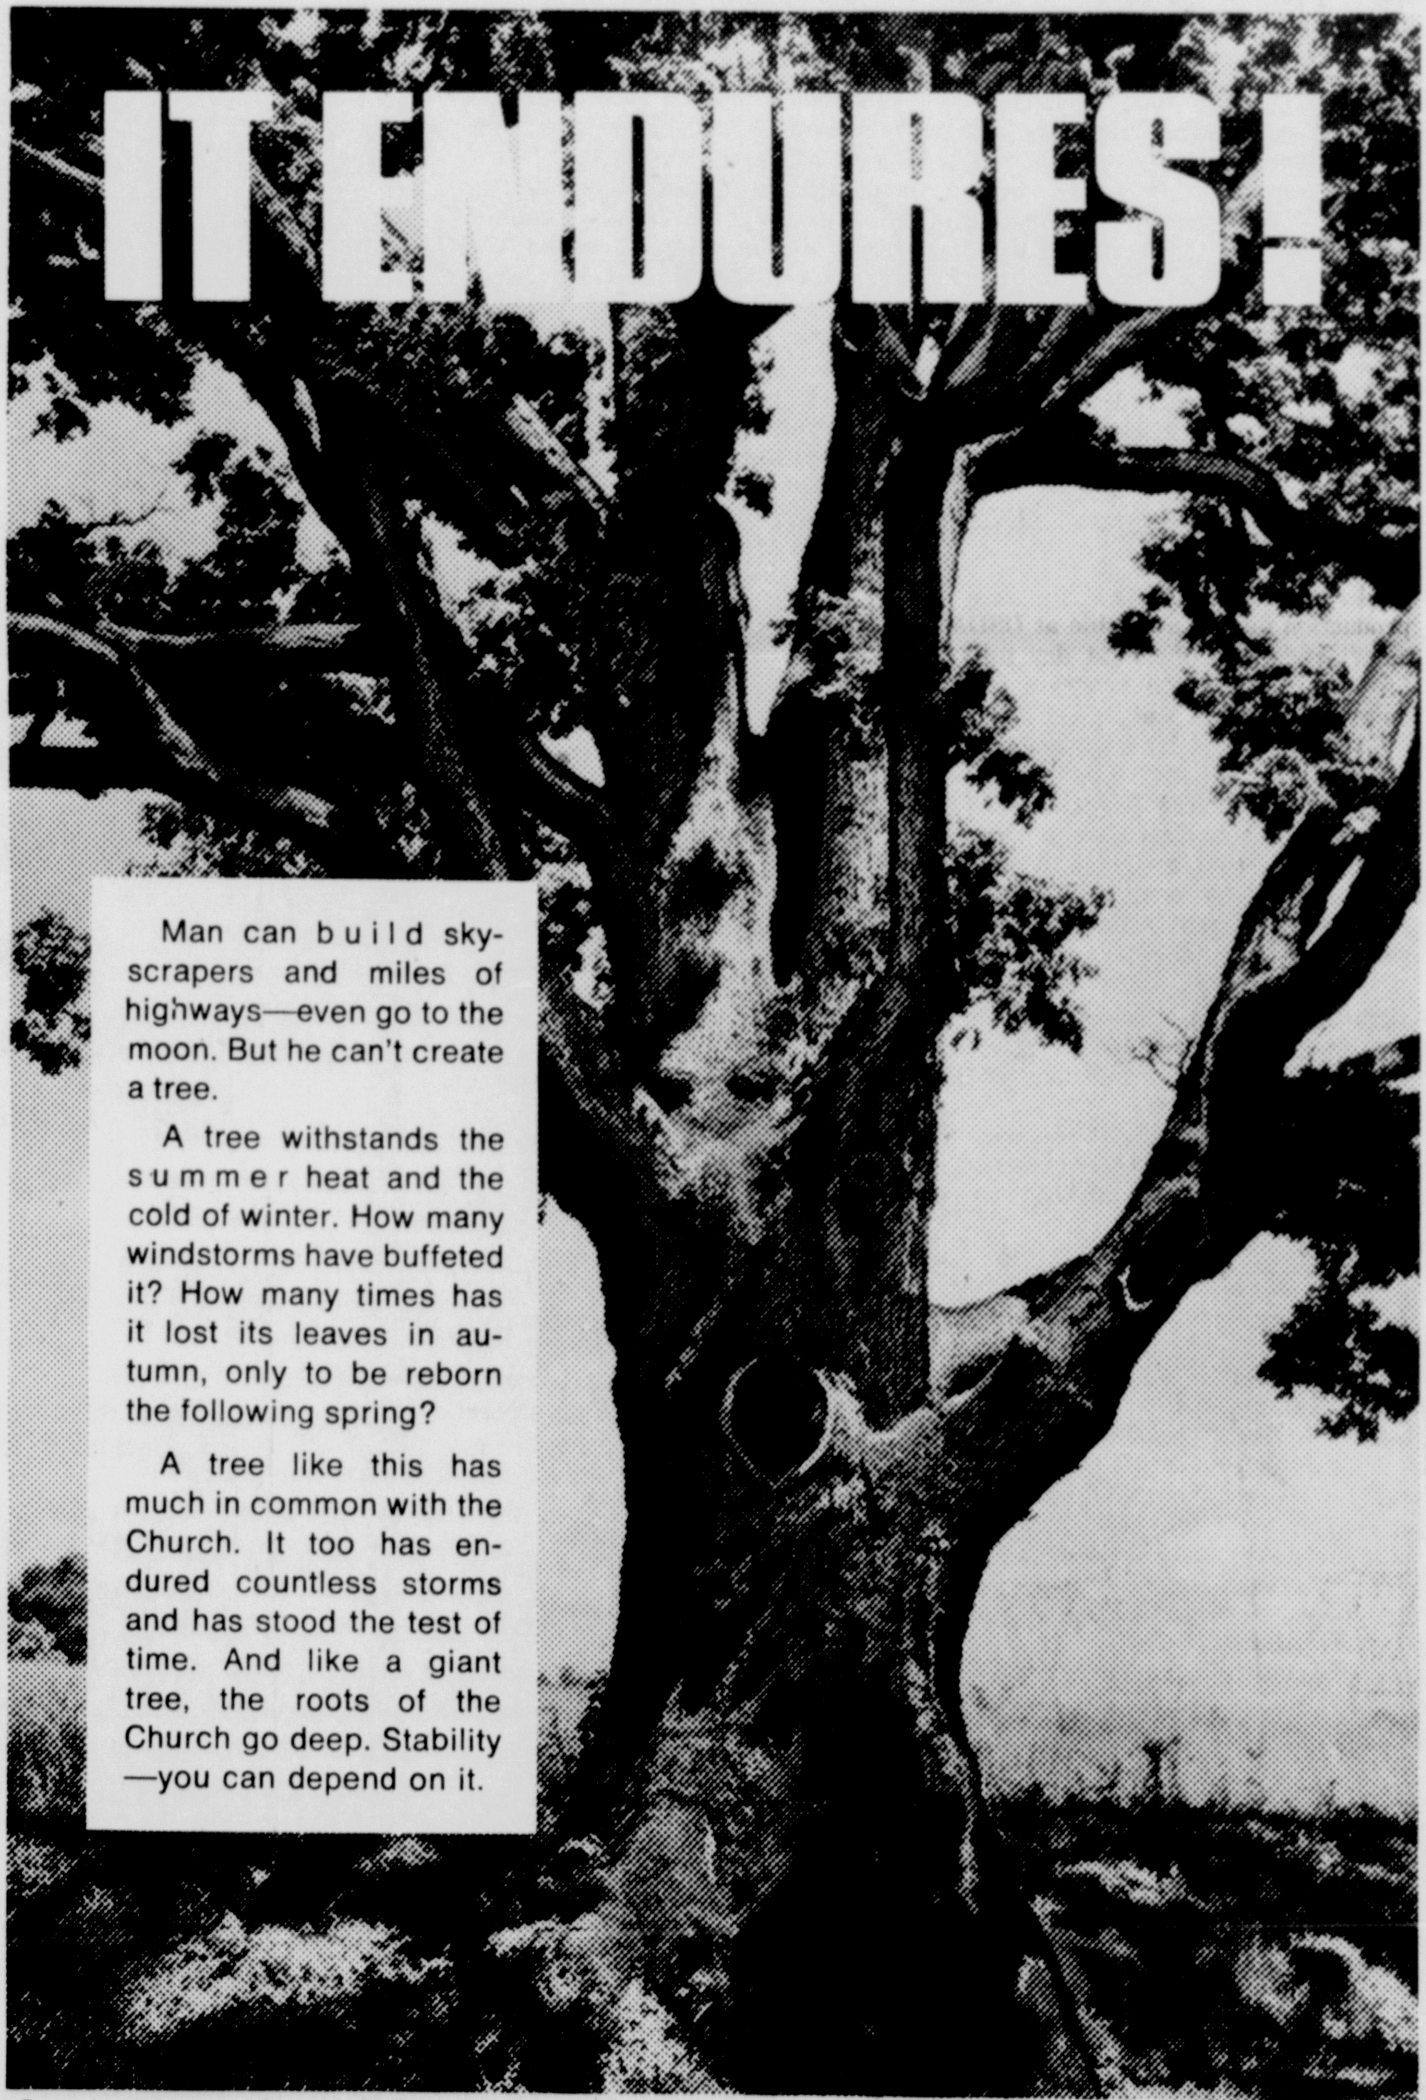

WASHINGTON (AP) — Preliminary data coming in to the Agriculture Department for April dairy production indicate some easing of the price trends that have favored cheese and hurt butter for months, some analysts say.

Earlier this week, the Crop Reporting Board said that March butter production of 77.4 million pounds was 15 per cent below 1973 and the lowest amount in 28 years. American cheese production, on the other hand, was the highest on record and 27 per cent greater than in March 1973.

Furthermore, nonfat dry milk was off 21 per cent from the year before, and creamed cottage cheese production was down 19 per cent.

Production since February, however, had increased in virtually all categories. Prices in the major products all were in the neighborhood of 30 per cent above March 1973 levels.

The reports for the first two weeks of April, however, "did indicate some slowing in the increase in cheese production," one milk-market expert said Wednesday. At the same time, production of butter, the price of which has fallen back to support levels, still is declining but at a slower rate.

IT ENDURES!

Man can build skyscrapers and miles of highways—even go to the moon. But he can't create a tree.

A tree withstands the summer heat and the cold of winter. How many windstorms have buffeted it? How many times has it lost its leaves in autumn, only to be reborn the following spring?

A tree like this has much in common with the Church. It too has endured countless storms and has stood the test of time. And like a giant tree, the roots of the Church go deep. Stability—you can depend on it.

Soy Mixed With Whey Slated As Food For Peace Item

WASHINGTON (AP) — Preschool children in foreign schools benefitting from the Food for Peace program soon will be getting their chance to identify with a slightly modernized, "Little Miss Muffet."

Rather than eating their "curds and whey," however, they will be drinking the whey...mixed with soy from soybeans in a dried beverage mix that costs less than half what nonfat dried milk does.

When it's mixed with water, the drink is 15 per cent solids, compared to 12½ per cent for milk. More important, the nutritionists said, it has the nutritional value of whole milk, unlike reconstituted nonfat dry.

In late March a large bid was accepted for a shipment, being delivered through the end of this month, of the whey-soy mix. Last week, another call went out, for 1.5 million pounds of it for delivery in June and July.

Meanwhile, the latest dairy-production figures available at USDA show production of nonfat dry milk, former staple of the program, was down 21 per cent in March from March 1973. The production of dry whey for human food was up 11 per cent.

Nonfat dry milk, supplies of which have been so tight that none has been included in Food for Peace donation purchases since before last June, represented \$19.08 million of fiscal year 1973 shipments in the in-

creasingly curtailed program.

A study released this month by Herbert H. Moede of USDA's national economic analysis division showed that the estimated cost of the wheysoy mix being tested for use as a supplementary food in beverage form in overseas preschool feeding programs was 20.3 cents a pound last August and 19.44 cents a pound in January.

Patman Funds Come From Bank Interests

WASHINGTON (AP) — Rep. Wright Patman, chairman of the House Banking and Currency committee, has reported raising more than \$100,000 for his re-election campaign, the largest single segment of which has come from savings and loan and banking interests, according to the citizens lobby Common Cause.

Reports filed by the Texas Democrat and a fund raising committee with the clerk of the House covering campaign finances through April 12 show Patman had raised \$105,205 and spent \$81,350 in his campaign.

A compilation by Common Cause shows that \$33,945 of Patman's campaign receipts came from savings, loan, mortgage and other banking interests.

Patman, who is also chairman of the Joint Economic Committee, faces two challengers in Saturday's Texas primary, including Fred Hudson Jr., whom he beat for the nomination two years ago. He spent only \$26,423 in the 1972 primary campaign and won 57.5 per cent of the vote. He was unopposed in the 1972 general election.

Individuals and organizations identified with savings and loan institutions have contributed \$14,870 to Patman this year, the reports show.

Individuals whose occupations were listed as involving savings and loans gave \$4,045 between February and April through a Bethesda, Md., committee called "Friends of Wright

Patman." This includes \$3,185 from 65 individuals associated with savings and loans in New York State.

The largest single items in the reports were a \$10,000 loan from the National Bank of Washington and a \$10,000 contribution from Texarkana, Tex., attorney Connor W. Patman.

Hudson, himself a savings and loan official, reported raising \$18,401 for his campaign, and Glen Jones, the third candidate in the Democratic primary, reported \$23,109. The only Republican candidate, James W. Farris, said he has raised \$5,550.

The bulk of Hudson's money was a \$13,341 loan he made to himself, and Jones loaned his own campaign \$12,000.

Wilmington Officer Pleads Not Guilty

WILMINGTON, Ohio (AP) — Former Wilmington policeman Dale A. Powell pleaded innocent Thursday to an aggravated murder charge in the shooting death of Randall B. Goldie, 22.

No trial date has been set. Bond for Powell was set at \$50,000.

Ohio U Talks Stall

ATHENS, Ohio (AP) — Disagreement over how many student employees must vote on a proposal for union recognition appeared to be the major hangup in negotiations between the Student Workers Union and Ohio University.

Talks were to resume today.

The union wants just a majority of student employees voting to be necessary to win bargaining rights. But university administrators insist that at least 80 per cent of those eligible for representation participate in

the voting.

Negotiators cleared a major hurdle Thursday when students agreed to permit hourly employees vote as a single unit. The union had wanted them to vote according to their occupation in six separate categories.

Other points of disagreement deal with other mechanics of conducting the election and supervising it.

University President Claude Sowle agreed to the representative election after about 250 SWU members went on strike last week.

Patman Funds Come From Bank Interests

WASHINGTON (AP) — Rep. Wright Patman, chairman of the House Banking and Currency committee, has reported raising more than \$100,000 for his re-election campaign, the largest single segment of which has come from savings and loan and banking interests, according to the citizens lobby Common Cause.

Reports filed by the Texas Democrat and a fund raising committee with the clerk of the House covering campaign finances through April 12 show Patman had raised \$105,205 and spent \$81,350 in his campaign.

A compilation by Common Cause shows that \$33,945 of Patman's campaign receipts came from savings, loan, mortgage and other banking interests.

Patman, who is also chairman of the Joint Economic Committee, faces two challengers in Saturday's Texas primary, including Fred Hudson Jr., whom he beat for the nomination two years ago. He spent only \$26,423 in the 1972 primary campaign and won 57.5 per cent of the vote. He was unopposed in the 1972 general election.

Individuals and organizations identified with savings and loan institutions have contributed \$14,870 to Patman this year, the reports show.

Individuals whose occupations were listed as involving savings and loans gave \$4,045 between February and April through a Bethesda, Md., committee called "Friends of Wright

Patman." This includes \$3,185 from 65 individuals associated with savings and loans in New York State.

The largest single items in the reports were a \$10,000 loan from the National Bank of Washington and a \$10,000 contribution from Texarkana, Tex., attorney Connor W. Patman.

Hudson, himself a savings and loan official, reported raising \$18,401 for his campaign, and Glen Jones, the third candidate in the Democratic primary, reported \$23,109. The only Republican candidate, James W. Farris, said he has raised \$5,550.

The bulk of Hudson's money was a \$13,341 loan he made to himself, and Jones loaned his own campaign \$12,000.

Wilmington Officer Pleads Not Guilty

WILMINGTON, Ohio (AP) — Former Wilmington policeman Dale A. Powell pleaded innocent Thursday to an aggravated murder charge in the shooting death of Randall B. Goldie, 22.

No trial date has been set. Bond for Powell was set at \$50,000.

Ohio U Talks Stall

ATHENS, Ohio (AP) — Disagreement over how many student employees must vote on a proposal for union recognition appeared to be the major hangup in negotiations between the Student Workers Union and Ohio University.

Talks were to resume today.

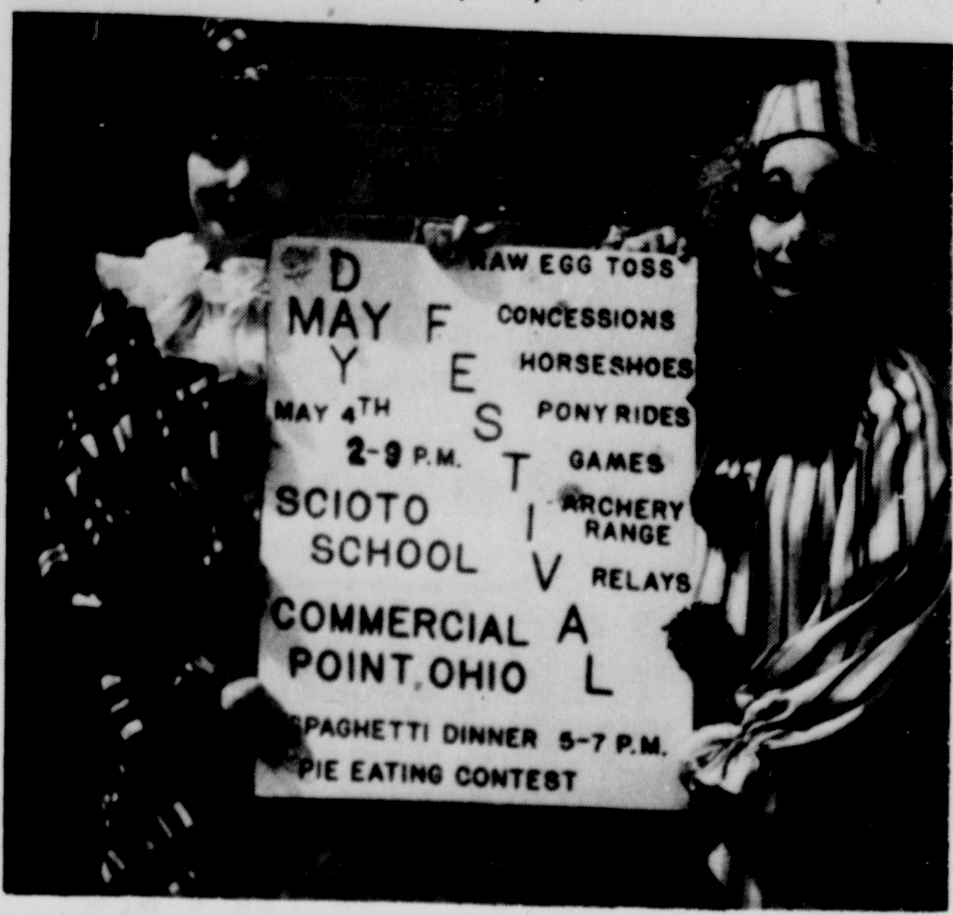

The union wants just a majority of student employees voting to be necessary to win bargaining rights. But university administrators insist that at least 80 per cent of those eligible for representation participate in

the voting.

Negotiators cleared a major hurdle Thursday when students agreed to permit hourly employees vote as a single unit. The union had wanted them to vote according to their occupation in six separate categories.

Other points of disagreement deal with other mechanics of conducting the election and supervising it.

University President Claude Sowle agreed to the representative election after about 250 SWU members went on strike last week.

MAY DAY — The Scioto Parent-Teacher Organization will sponsor May Day festivities Saturday, 2-9 p.m. A spaghetti dinner will be served 5-7 p.m. with other activities such as pony rides, clowns, big bunny, sponge throw, pop and cane ring toss, sack races, cake walk, raw egg toss, horseshoe game, grab bag and musical entertainment being offered throughout the afternoon and evening.

Soy Mixed With Whey Slated As Food For Peace Item

WASHINGTON (AP) — Preschool children in foreign schools benefitting from the Food for Peace program soon will be getting their chance to identify with a slightly modernized, "Little Miss Muffett."

Rather than eating their "curds and whey," however, they will be drinking the whey...mixed with soy from soybeans in a dried beverage mix that costs less than half what nonfat dried milk does.

When it's mixed with water, the drink is 15 per cent solids, compared to 12½ per cent for milk. More important, the nutritionists said, it has the nutritional value of whole milk, unlike reconstituted nonfat dry.

In late March a large bid was accepted for a shipment, being delivered through the end of this month, of the whey-soy mix. Last week, another call went out, for 1.5 million pounds of it for delivery in June and July.

Meanwhile, the latest dairy-production figures available at USDA show production of nonfat dry milk, former staple of the program, was down 21 per cent in March from March 1973. The production of dry whey for human food was up 11 per cent.

Nonfat dry milk, supplies of which have been so tight that none has been included in Food for Peace donation purchases since before last June, represented \$19.08 million of fiscal year 1973 shipments in the in-

creasingly curtailed program.

A study released this month by Herbert H. Moede of USDA's national economic analysis division showed that the estimated cost of the wheysoy mix being tested for use as a supplementary food in beverage form in overseas preschool feeding programs was 20.3 cents a pound last August and 19.44 cents a pound in January.

Dear Abby:

By Abigail Van Buren

Fear Stops Good Samaritan Acts

DEAR ABBY: Can you or anyone in your vast reading audience provide a solution to a problem which saddens me? Because of the frightening increase of crime, in order to protect myself, I must now refuse to lend a helping hand to a brother or sister in apparent need of help. If I am driving along the road and see a car stalled by the roadside, and a woman tries to flag me down, must I ignore her plight and keep going because I fear it might be a trap to rob me? Or if a stranger, apparently hysterical, rings my doorbell and asks to use my phone to call the police and ambulance to report an accident must I say: "Sorry, no," because he might be trying to set me up for a holdup or kidnapping?

I have always felt that I was my brother's keeper. Not anymore. I and millions of others await your reply.

TAKING NO CHANCES

DEAR TAKING: If someone tries to flag you down on the road, keep going. But stop at the first telephone and report it to the police of highway patrol. Under no circumstances should you open your door to a strange man, woman or child. Don't ignore them. Offer to make a call and summon help.

DEAR ABBY: My father wants to get a motorcycle. My mother and I feel he wants the fun of being a teen-ager again, but he claims a motorcycle is the answer to the gas shortage. I am more afraid of his getting hurt than anything else. He's 47 and has to drive 40 miles on the freeway every day to get to work and back. My brothers are on his side, and my mom and I are against it.

This is causing a lot of arguments in our house. How do you feel about a man Dad's age buying a motorcycle when he's never ridden one before in his life?

CONCERNED

DEAR CONCERNED: Same as you, but your father is an adult and must be aware of the dangers as well as the advantages. You've spoken your mind now be quiet. And for heaven's sake, if he should get into an accident, resist the urge to say: "I told you so."

DEAR ABBY: How can I open up my son's eyes to something before it's too late?

Sonny is 28, and he's marrying Sally, a 26-year-old widow with a child. Sally was married at 20, and had a baby at 21, and her husband was killed in an accident when she was 22.

Because Sally was orphaned young, she never knew her mother, so she became very close to her mother-in-

law. After Sally's husband was killed, she and the baby moved in with the in-laws and they've lived there ever since.

I have told my son that since it isn't proper for a widow to have a gala wedding, he should insist on a small quiet ceremony with none of Sally's in-laws present, but he said whatever Sally wanted was alright with him. Well, Sally is having all her first husband's family, and I'm afraid with all the memories of their dead son they will turn the wedding into a funeral.

I don't want to be a meddling mother-in-law, but I want my son to realize that unless Sally breaks those strong ties with her past, their marriage doesn't stand a chance. So how should I do it?

Gilligan To Attend Kentucky Derby

COLUMBUS, Ohio (AP) — Gov. John J. Gilligan will attend Saturday's Kentucky Derby as the guest of Columbus realtor John W. Galbraith, it was announced Thursday.

to be a meddling mother-in-law, the advice from here is—don't meddle.

Natural Gas Price Boost Set

CINCINNATI, Ohio (AP)— Southwestern Ohio and Northern Kentucky customers will be paying slightly higher prices for natural gas beginning the second week of May, according to the Cincinnati Gas & Electric Co. and its subsidiary, the Union Light, Heat and Power Co.

The hike amounts to two-thirds of a cent per hundred cubic feet.

The firms blamed the increase on the use of synthetic gas. A statement Wednesday said the utilities are now using synthetics for 4 per cent of their supply because the Columbia Gas Co., their supplier, is unable to furnish the amount of gas they contracted for.

Auto Catches Fire In Downtown Area

An auto fire in front of King's Department Store, 129 W. Main St., was reported to the Circleville Fire Department at 10:07 a.m. this morning.

The car owned by J. W. Speakman, Atlanta, had backfired through the carburetor causing approximately \$25 damages to the vehicle.

Maryland Court Disbars Agnew

ANNAPOLIS, Md. (AP) — Calling Spiro T. Agnew morally obtuse, the Maryland Court of Appeals has prohibited the former vice president from practicing law.

"It is difficult to feel compassion for an attorney who is so morally obtuse that he consciously cheats for his own pecuniary gain that government he has sworn to serve, completely disregards the words of the oath he uttered when first admitted to the bar and absolutely fails to perceive his professional duty to act honestly in all matters," the court said.

The state's highest court disbarred Agnew on Thursday because he pleaded no contest last October to a charge he evaded about \$13,500 in federal taxes when he was governor of Maryland in 1967.

Agnew was not a member of the federal bar, and his disbarment in Maryland prevents his practicing law elsewhere.

The ruling affirmed a recom-

mendation in January by a three-judge circuit court panel which heard the case brought against Agnew by the Maryland Bar Association.

Agnew, who was unavailable for comment, cannot appeal the decision but could petition the court for reinstatement as a lawyer at any time, officials of the court of appeals said.

In a unanimous 13-page opinion from the seven judges, the court said it considered tax evasion a crime involving moral turpitude, fraud and deceit and as such required disbarment under state law, court rulings and the ethical rules of the American Bar Association.

The judges said they found no mitigating circumstances to grant requests by Agnew and his lawyer, Leon H.A. Pierson, that the former public official merely be suspended from practicing law, his profession before entering politics full time in 1962.

The judges said failure to disbar Agnew would be a travesty of their responsibility to uphold the integrity of the legal profession and prevent individual lawyers from hurting its image.

Agnew, who was fined \$10,000 and placed on three years probation by the U.S. District Court in Baltimore, had asked the circuit court panel last December to leave him with the means to earn a living.

Since then, he has announced he is writing a novel about the vice presidency. Persons in the publishing industry have predicted the book should earn Agnew \$100,000 or more.

Court Hears Three Cases

Three men appeared on criminal charges Wednesday in Pickaway County Common Pleas court.

With agreement of County Prosecutor Richard L. Gerhardt, the court reduced a charge of grand larceny to petit larceny against Robert Shelton. Judge William Ammer fined the man \$100 for the misdemeanor charge.

Billy Boyle, Derby, appeared on a charge of breaking and entering and receiving stolen property. He changed his plea from not guilty to guilty and the court ordered a pre-sentence report to be prepared by the Adult Parole Authority.

A conviction of grand larceny brought three years' probation to Thomas Mumaw.

The April Grand Jury is scheduled to meet in second session this afternoon. Gerhardt has at least one case to present to the grand jury at that time.

Thieves Take Clocks, Items Worth \$1368

Pickaway County Sheriff's Deputy J. Phillip Brown is continuing the investigation of a break-in at the residence of Mrs. William Shelton, Route 5, Bell Station Road.

According to Mrs. Shelton, thieves forced their way into her house, sometime between 7:30 a.m. and 4:45 p.m. Thursday, by opening a kitchen door which leads to the basement.

The house was completely ransacked with the thieves taking valuable clocks and miscellaneous items.

The estimated value of the items was \$1368.

Tiger Thinclads Add 5th SCO Title To Laurels

The Circleville High School track team added its fifth consecutive South Central Ohio League title to its trophy case. On a cool, damp Thursday evening the Tigers won five events and scored a total 80½ points.

Hillsboro, the nearest contender, was second with 68½ points. Washington C. H. was third with 32 points, Wilmington fourth with 21, Miami Trace fifth with 16, Unioto sixth

with 14 and Greenfield seventh with five. Madison Plains, who is leaving the league, did not field a team in the meet.

In spite of the weather, four records were set yesterday. Reggie Radcliff cleared 13 feet in the pole vault, eclipsing the old mark of 12 feet 9½ inches set just last year by Fehring of Hillsboro.

Jim Buck, Hillsboro's superb

distance runner, established two marks, winning the mile in 4:34.6 and the 880-yard run in 2:00.5. The other record went to the Hillsboro mile relay team, with a winning time of 3:34.3.

It was the most consecutive track wins for any South Central Ohio League School.

Circleville's outstanding depth along with a couple of "surprise" wins propelled the Red and Black cinder men to the team title.

"We felt we could win the meet but we expected it to be a lot closer than it was," CHS coach Jim Lint reported.

"The boys really wanted to win this one for Bill (Circleville Herald Sports editor Bill McGaffney who is recuperating in Berger Hospital from a heart attack).

The "surprises" for Circleville were in the 440-yard dash where Robin Martin cruised to a 52.3 victory and in the 220-yard dash where Rick Sampsill nipped Hastings of Hillsboro in 23.6.

The Tiger coach expected his men to win the high jump, the pole vault and the 2-mile run and they lived up to his expectations.

Radcliff's record breaking effort in the pole vault was complimented by Cordle's second place effort. Frank Plescia won the high jump at 6 feet and under more favorable weather conditions Lint said his junior leaper would have set a new league record.

Steve Watters paced a 10:21.3 2-mile and Bill Massie with an outstanding effort finished second in this event for a one-two punch that was really not expected.

"If Steve would have had somebody really pushing him or if the weather would have been better we might have had another record," according to the veteran track mentor.

Matt McGowan was clocked in 4:36.8, finishing second in the mile run behind buck. This was a school record eclipsing the old CHS mark set by Matt's brother Bill in 1971.

Other second place finishes by the Tigers were by Jeff Danford in the 120-yard high hurdles, Plescia in the 180-yard low hurdles and the Circleville mile relay team of Martin, Doug Radabaugh, Mike McCoy and John Ankrom.

Circleville had five third place finishes: Jim England in the discus, Plescia in the long jump, George Moore in the high jump, Warren Yamarick in the 100-yard dash, Radabaugh in the 880-yard run.

The fourth place finishes for Circleville were: Jim Arledge in the shot, John Stevens in the mile, Ankrom in the 440, Herb Sturgell in the 180 low hurdles, Doug Palm in the 880. Fifth place finishes were Sturgell in the low hurdles, Sampsill in the 100.

Circleville has dominated the South Central Ohio League track during the last ten years. In addition to the record number of consecutive titles, Tiger individuals have their names beside seven individual records, more than any other school in the league.

In 1965 Jim Wood set three of these records. He won the 180-yard low hurdles in 19.1, the 120-yard high hurdles in 14.9 and the 220-yard dash in 22.0.

Larry (Taz) Payne in 1967 established a long jump record of 21 feet 7 inches. In 1973 Tom Frericks heaved the shot 58 feet 5 inches and the discus 172 feet one inch for record efforts. And now Radcliff joins that elite group of athletic record holders.

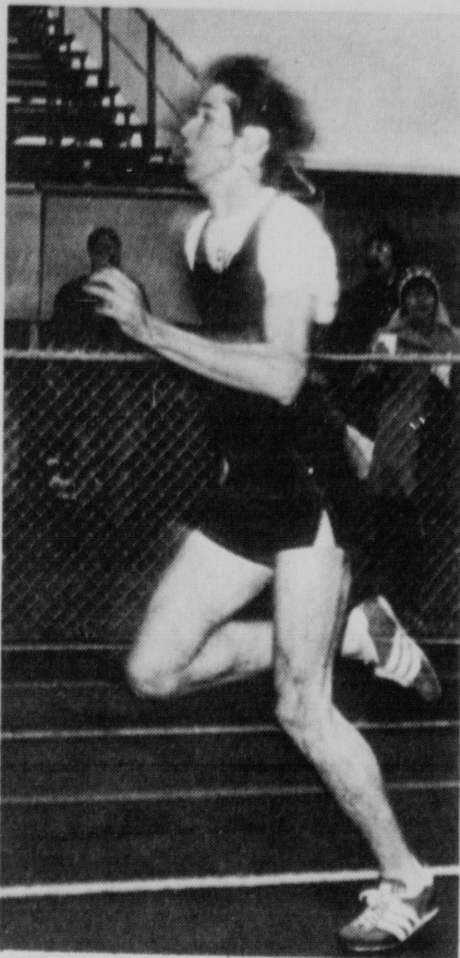

Here are the complete results of the meet:

Shot — 48 feet 5 inches. Cyrus (H), Warnock (MT), Gleada (MT), Arledge (C), Matson (U).

today for further medical examination after he severely cut the middle finger of his pitching hand in the shower room at Pittsburgh.

"It didn't hurt. I didn't even know I'd done it until I saw the bleeding," said the lefthander who has given up only one run in nine innings of relief work this season.

Hall is expected to miss at least two weeks. Rookies Pat Osborn was elevated to the short relief spot. Hall received seven stitches and a small cast on the finger.

Hall was injured after the Reds-Pirates game was called because of rain. He said the soap dish in the shower room was broken and he cut himself on a jagged edge.

"The doctor said he could see the tendon and said if I'd cut it I would have had big trouble," said the 26-year-old hurler in obvious relief.

"I've got to find out what he can do," said Manager George "Sparky" Anderson of his decision to use Osborn, "and this is as good a time as any."

Meanwhile, the Reds were reacting to a decision of an arbitration board that reversed fines placed last year against outfielder Bobby Tolan. The arbitrators ruled the Reds must return \$350 in fines to Tolan, who is now with the San Diego Padres.

Reds President Bob Howsam branded the decision "very unfair." "Our people here and our fans are aware of what happened and many of them saw for themselves at the ball park. To us, that is the important thing."

The ruling followed a hearing in Detroit in January by a board that included Detroit arbitrator Gabriel Alexander, Marvin Miller, executive director of the Major League Players Association and John Gaharin representing the owners.

Anderson said he had "no feelings about it" although he blamed himself earlier for Tolan's dispute with management.

"The ball club has been fair always to everyone," said catcher John Bench. "It wanted to win the case, but since Tolan was gone, didn't try. It presented it's case without really any witnesses."

Joe Morgan, second baseman, said the ruling was just "because the first problem started with the club." Pete Rose agreed.

Tolan was fined \$100 last season for not keeping a doctor's appointment and \$350 for failing to take batting and fielding practice. The National League reversed a Reds front office decision to place Tolan on the injured reserve list because he wasn't injured.

Part of the fine stemmed from a dispute between Tolan and a front office executive.

Tiger Thinclads Add 5th SCO Title To Laurels

The Circleville High School track team added its fifth consecutive South Central Ohio League title to its trophy case. On a cool, damp Thursday evening the Tigers won five events and scored a total 80½ points.

Hillsboro, the nearest contender, was second with 68½ points. Washington C. H. was third with 32 points, Wilmington fourth with 21, Miami Trace fifth with 16, Unioto sixth

with 14 and Greenfield seventh with five. Madison Plains, who is leaving the league, did not field a team in the meet.

In spite of the weather, four records were set yesterday. Reggie Radcliff cleared 13 feet in the pole vault, eclipsing the old mark of 12 feet 9½ inches set just last year by Fehring of Hillsboro.

Jim Buck, Hillsboro's superb

distance runner, established two marks, winning the mile in 4:34.6 and the 880-yard run in 2:00.5. The other record went to the Hillsboro mile relay team, with a winning time of 3:34.3.

It was the most consecutive track wins for any South Central Ohio League School.

Circleville's outstanding depth along with a couple of "surprise" wins propelled the Red and Black cinder men to the team title.

"We felt we could win the meet but we expected it to be a lot closer than it was," CHS coach Jim Lint reported.

"The boys really wanted to win this one for Bill (Circleville Herald Sports editor Bill McGaffney) who is recuperating in Berger Hospital from a heart attack."

The "surprises" for Circleville were in the 440-yard dash where Robin Martin cruised to a 52.3 victory and in the 220-yard dash where Rick Sampill nipped Hastings of Hillsboro in 23.6.

The Tiger coach expected his men to win the high jump, the pole vault and the 2-mile run and they lived up to his expectations.

Radcliff's record breaking effort in the pole vault was complimented by Cordle's second place effort. Frank Plescia won the high jump at 6 feet and under more favorable weather conditions Lint said his junior leaper would have set a new league record.

Steve Watters paced a 10:21.3 2-mile and Bill Massie with an outstanding effort finished second in this event for a one-two punch that was really not expected.

"If Steve would have had somebody

really pushing him or if the weather would have been better we might have had another record," according to the veteran track mentor.

Matt McGowan was clocked in 4:36.8, finishing second in the mile run behind buck. This was a school record eclipsing the old CHS mark set by Matt's brother Bill in 1971.

Other second place finishes by the Tigers were by Jeff Danford in the 120-yard high hurdles, Plescia in the 180-yard low hurdles and the Circleville mile relay team of Martin, Doug Radabaugh, Mike McCoy and John Ankrom.

Circleville had five third place finishes: Jim England in the discus, Plescia in the long jump, George Moore in the high jump, Warren Yamarick in the 100-yard dash, Radabaugh in the 880-yard run.

The fourth place finishes for Circleville were: Jim Arledge in the shot, John Stevens in the mile, Ankrom in the 440, Herb Sturgell in the 180 low hurdles, Doug Palm in the 880. Fifth place finishes were Sturgell in the low hurdles, Sampill in the 100.

Circleville has dominated the South Central Ohio League track during the last ten years. In addition to the record number of consecutive titles, Tiger individuals have their names beside seven individual records, more than any other school in the league.

In 1965 Jim Wood set three of these records. He won the 180-yard low hurdles in 19.1, the 120-yard high hurdles in 14.9 and the 220-yard dash in 22.0.

Larry (Taz) Payne in 1967 established a long jump record of 21 feet 7 inches. In 1973 Tom Frericks heaved the shot 58 feet 5 inches and the discus 172 feet one inch for record efforts. And now Radcliff joins that elite group of athletic record holders.

Here are the complete results of the meet:

Shot — 48 feet 5 inches. Cyrus (H), Warnock (MT), Gleada (MT), Arledge (C), Matson (U).

Discus — 149 feet 5 inches. Cyrus (H), Brown (WCH), England (C), Adams (McC), Henry (Wil).

Tigers Defeat Royals

KANSAS CITY (AP) — Detroit Manager Ralph Houk is loaded with late spring optimism.

The reason is obvious: The Tigers completed a sweep of a three-game series with the Kansas City Royals with Thursday night's 9-7 victory—their fifth consecutive triumph.

Houk, aware that most baseball experts wrote the Tigers off before the season even started, said after the triumph:

Blancas Rides Putting To Lead In Nelson Classic

DALLAS (AP) — Despite the rigors and pressures of the professional golf circuit, the game can be fun, says scrambling Homero Blancas.

"Yeah, it's fun out there when you can get it in close and make all those putts," he says.

"Once I get under par I have a tendency to keep on making birdies. I like to make a lot of birdies and then just go."

Such was the case Thursday as the free-wheeling tour veteran rode a hot putting streak and a pair of eagles to a six-under-par 65 and the first-round lead of the Byron Nelson Golf Classic.

Blancas, whose protruding midriff reflects the good life, recorded a 33-32—65 on the 6,957-yard windswept and waterlogged Preston Trail course in the chase for the top prize of \$30,000 in the \$150,000 tourney.

That was good for a two-shot lead over a quartet that included Australians Bruce Crampton and Bruce Devlin, New Zealand's Bob Charles and unsung American Bob Payne.

Stars Seek Way To Stop Julius Erving

UNIONDALE, N.Y. (AP) — The Utah Stars, burned by Julius Erving's fireworks, hunted today for a way to defuse the New York Nets in the American Basketball Association championship series.

The Stars, usually known for their scoring outbursts, were groping for a defensive strategy to hinder New York's Dr. J Saturday night in game No. 2 of the best-of-seven series.

A 47-point scoring display by Erving, the ABA's Most Valuable Player, led the Nets to the 89-85 victory Tuesday night while shooting difficulties plagued most of the other players in the game.

"I'm looking forward to another shot at the Doctor but he's kind of a hard person to guard," said Utah rookie Bruce Seals Thursday after Coach Joe Mullaney staged a team practice.

Seals, a 6-foot-9 newcomer from Xavier, La., had little support while defending Erving. But veteran Willie Wise helped limit Dr. J to six points in the last quarter.

"I thought I played him pretty tough," said Seals about the battle. "But he can go up high with that soft shot."

The Nets, despite Erving's acrobatics, sank only 39 of 84 shots from the field for a 46 per cent team average. But Utah was just 33 of 80 for a 41 per cent mark.

"We would have won the game if we had shot a little better," claimed Seals. "We're confident about the next one."

Seals said Utah might have suffered an emotional letdown after the seven-game playoff series with the Indiana Pacers. "There was a lot of stress in that last game," he said.

Bob Gibson of the St. Louis Cardinals tied a World Series record held by Christy Mathewson. Both allowed only 14 hits in pitching three complete games in one series.

"I see no reason why we can't do it. We've got a pretty good club. We've got good young pitchers, a good defense. We can score runs. We don't have much speed but we've got the hitting to get the runs in, and that's what counts in baseball."

Detroit's victory in the only game played in the major leagues Thursday night left the Tigers only 1½ games behind the American League East Di-

Mahaffey, Raymond Floyd, Jim Simons and Rick Rhoads, an unknown Californian who burned the back nine with a sizzling 31.

Lee Trevino, bidding for his first Texas victory, Ben Crenshaw and veterans Bobby Nichols, Billy Casper and Chi Chi Rodriguez headed a group at 69.

A record 30 players in the field of 150 broke par and 17 others equalled it, a fact attributed largely to the soft, true greens.

Blancas, the former University of Houston sharpshooter who has won five times on the tour, said he does not consider the leader's role an uncomfortable one.

"I like to get out front," he said. "I'm a scrambler and my strong points are my short irons and putting. I just don't hit the ball high enough to win any of the major tournaments. I have to accept my own ability. I don't expect to win a major championship."

Bill Bergey Suit Nears Completion

CINCINNATI (AP) — The World Football League is expected to complete its defense today against the Cincinnati Bengals suit hoping to prove its right to exist as a competitor.

Testimony is expected to be completed this morning and lawyers from both sides are scheduled to present final arguments, along with briefs, to U.S. District Court Judge David S. Porter Wednesday.

The National Football League Bengals are seeking an injunction to stop the WFL from signing Bengal players to future contracts while they still are under Cincinnati contracts.

The Bengals also want to force the Virginia Ambassadors to take back a \$150,000 bonus paid to linebacker Bill Bergey and his contract effective in 1976.

The Bengals said known offers to front line players can do irreparable damage to the team in efforts to win championships while those players' options are being played out.

Testimony so far indicated WFL offers have been made to linemen Pat Matson, John Shimmers and Rufus Mayes, center Bob Johnson, quarterback Ken Anderson, tight end Bob Trumpy and punter Dave Lewis.

The WFL maintains that its new league gives players a freedom of choice and allows them to improve their financial situation in the NFL because of the competition.

WFL attorneys and the Pro Football Players Association have attacked the "Rozelle Rule" under which, they say, players are prevented from playing with the teams of their own choice or from getting bigger salaries.

Under the rule, when a player plays a year beyond his signed contract, his option has run out. However, NFL Commissioner Pete Rozelle can determine compensation due the team the player leaves to join another.

In testimony Thursday, Bergey said his main consideration in signing with Virginia is family security but he fully intends to play to the best of his ability while remaining with Cincinnati for the next two seasons.

vision-leading New York Yankees. Cincinnati's game at Pittsburgh and Atlanta's game at St. Louis in the National League were rained out. All other clubs had open dates.

"I don't know why most people thought we'd be so bad," said Houk. "You know, we've added nine players who weren't here last year. There's not a better left side of the infield in the league ... we've got the hitting."

"We're most improved in young pitching like Lerrin LaGrow and Bill Slayback. If our pitching holds up and I think it will, I see no reason why we can't go all the way."

Houk looked up and smiled as if he suddenly remembered something.

"It got a little shaky there at the end tonight, didn't it? Joe Coleman was going so good and then he got wild."

The Royals, trailing 8-0, erupted for two runs in the seventh on Hal McRae's fourth home run of the season and five more in the eighth. Coleman, 5-1, who gave up only four hits in the first five innings, left during the five-run outburst with the bases loaded, and John Hiller took over.

The Tigers lost little time jumping on Al Fitzmorris, 2-1, getting three runs in the second and three more in the third.

Mickey Stanley, Jim Northrup and Aurelio Rodriguez did combined for eight of Detroit's 12 hits and drove in five runs. After the Royals pulled up to 8-7, Northrup homered in the ninth.

New York Rangers Defeat Flyers, 4-1

NEW YORK (AP) — Crank up Kate Smith. There's going to be a hockey game in the Philadelphia Spectrum Sunday.

The New York Rangers saw to that with a 4-1 victory over the Flyers in the sixth game of their National Hockey League semifinal playoff Thursday night. That forced a seventh and deciding game in Philadelphia Sunday, and you can bet that the Flyers will play their lucky song—Miss Smith's rendition of God Bless America—before the game.

Hopefuls Get Ready

LOUISVILLE, Ky. (AP) — A mixture of 3-year-olds, including graduates of small track racing and major stakes winners such as Judger, was set to battle for glory and gold Saturday in the 100th Kentucky Derby.

The added prestige of this centennial Derby, the general inconsistency of this year's 3-year-olds and a record purse drew the most contenders ever for the famed 1¼-mile race at Churchill Downs.

If all 23 start, which would break the record of 22 in 1928 when Reigh Count won, the purse will be \$326,500, with \$274,000 to the winner. The big pot—the old record was \$198,800 last year when Secretariat won—was due to a record 290 nominations at \$100 each and increases from \$2,500 to \$4,000 to enter and from \$1,500 to \$3,500 to start.

The Woody Stephens-trained entry of Seth Hanock's Judger and John M. Olin's Cannonade was made the early 8-5 favorite Thursday while the Sigmond Sommer pair of Rube The Great and Accipiter was second at 9-2.

"He's gonna be taken back anyway," Stephens said after the stretch-running Judger drew the No. 22 post position. The Blue Grass Stakes and Florida Derby winner will be ridden by Laffit Pincay Jr.

"The other horse can get a position

Oakland Players Slate Private Meet

CLEVELAND, Ohio (AP) — The Cleveland Indians face an angry team of Oakland A's today in Oakland.

The A's players have called a meeting — without inviting manager Alvin Dark and the coaching staff.

"We're not going to discuss the manager," said one disgruntled player. "Maybe he hasn't given us all the help he should, but we're the ones who are losing the games. We've got to talk to each other."

The 1973 Hambletonian winner Flirth has been purchased from the Arden Homestead Stable of Goshen, N.Y., by John E. duPont of Foxcatcher Farm in Newtown, Pa.

fast," said Stephens of Stepping Stone winner Cannonade, who will start under Angel Cordero from the No. 2 post. In the No. 1 spot is Meeken Stable's Agitate, winner of five of six starts including the California Derby. Agitate is the third choice, at 5-1, and will be ridden by Bill Shoemaker.

"As long as I don't lose my jockey on the break, it doesn't matter what my position is," said Frank "Pancho" Martin, who trains Rube The Great and Accipiter. He was referring to Miguel A. Rivera, who fell off Accipiter shortly after the start of the Stepping Stone.

When the field goes to the post at 5:30 p.m., EDT, Saturday, Rivera will be on Rube The Great, winner of divisions of the Gotham and Wood Memorial, in the No. 12 slot. Angel Santiago will start Accipiter from the No. 4 post.

Other trainers seemed to be more interested in the weather than the post

positions. It rained Thursday, but no rain was forecast for Derby Day.

Monte Sims said Kenneth Optein's Destroyer, upset winner of the Santa Anita Derby, would not go on a muddy track.

"Everything is fine and it will even be better if it keeps raining," said Preston King, trainer of Samuel Lehrman's Triple Crown, a doubles stakes winner.

CBS television coverage is set for 5 p.m. to 6 p.m., EDT.

The Woody Stephens-trained entry of Seth Hanock's Judger and John M. Olin's Cannonade was made the early 8-5 favorite Thursday while the Sigmund Sommer pair of Rube The Great and Accipiter was second at 9-2.

"He's gonna be taken back anyway," Stephens said after the stretch-running Judger drew the No. 22 post position. The Blue Grass Stakes and Florida Derby winner will be ridden by Laffit Pincay Jr.

"The other horse can get a position fast," said Stephens of Stepping Stone winner Cannonade, who will start under Angel Cordero from the No. 2 post. In the No. 1 spot is Meeken Stable's Agitate, winner of five of six starts including the California Derby. Agitate is the third choice, at 5-1, and will be ridden by Bill Shoemaker.

"As long as I don't lose my jockey on the break, it doesn't matter what my position is," said Frank "Pancho" Martin, who trains Rube The Great and Accipiter. He was referring to Miguel A. Rivera, who fell off Accipiter shortly after the start of the Stepping Stone.

When the field goes to the post at 5:30 p.m., EDT, Saturday, Rivera will be on Rube The Great, winner of divisions of the Gotham and Wood Memorial, in the No. 12 slot. Angel Santiago will start Accipiter from the No. 4 post.

Other trainers seemed to be more interested in the weather than the post positions. It rained Thursday, but no rain was forecast for Derby Day.

Monte Sims said Kenneth Optein's Destroyer, upset winner of the Santa Anita Derby, would not go on a muddy track.

"Everything is fine and it will even be better if it keeps raining," said Preston King, trainer of Samuel Lehrman's Triple Crown, a doubles stakes winner.

CBS television coverage is set for 5 p.m. to 6 p.m., EDT.

Blancas Rides Putting To Lead In Nelson Classic

DALLAS (AP) — Despite the rigors and pressures of the professional golf circuit, the game can be fun, says scrambling Homero Blancas.

"Yeah, it's fun out there when you can get it in close and make all those putts," he says.

"Once I get under par I have a tendency to keep on making birdies. I like to make a lot of birdies and then just go."

Such was the case Thursday as the free-wheeling tour veteran rode a hot putting streak and a pair of eagles to a six-under-par 65 and the first-round lead of the Byron Nelson Golf Classic.

Blancas, whose protruding midriff reflects the good life, recorded a 33-32-65 on the 6,957-yard windswept and waterlogged Preston Trail course in the chase for the top prize of \$30,000 in the \$150,000 tourney.

That was good for a two-shot lead over a quartet that included Australians Bruce Crampton and Bruce Devlin, New Zealand's Bob Charles and unsung American Bob Payne.

LOUISVILLE, Ky. (AP) — A mixture of 3-year-olds, including graduates of small track racing and major stakes winners such as Judger, was set to battle for glory and gold Saturday in the 100th Kentucky Derby.

The added prestige of this centennial Derby, the general inconsistency of this year's 3-year-olds and a record purse drew the most contenders ever for the famed 1¼-mile race at Churchill Downs.

If all 23 start, which would break the record of 22 in 1928 when Reigh Count won, the purse will be \$326,500, with \$274,000 to the winner. The big pot—the old record was \$198,800 last year when Secretariat won—was due to a record 290 nominations at \$100 each and increases from \$2,500 to \$4,000 to enter and from \$1,500 to \$3,500 to start.

The Woody Stephens-trained entry of Seth Hanock's Judger and John M. Olin's Cannonade was made the early 8-5 favorite Thursday while the Sigmund Sommer pair of Rube The Great and Accipiter was second at 9-2.

of guys he has on the team.

He also commented, "Our team is in a rebuilding year. We only have one full-time starter back from last year's team. Our ball club is very young; however, the attitude of everyone on the team is unbeatable. The South Central Ohio League has been very balanced this year with a lot of good teams. The Tigers are by far the youngest team in the league."

The Tigers will be involved in a county tournament tomorrow at Logan Elm. Circleville will go up against Teays Valley in the first game, beginning at 1:00 p.m. the winner of that game will play Logan Elm.

Monday the Tigers will begin tournament action when they travel to Bishop Ready. Coach Lawhorn stated, "As far as we know, Ready has a good ball club. They placed third in a tough Central Catholic League."

Coach Lawhorn commented about the rest of the season, "Our boys are the kind that do not give up. We, as a team, are looking forward to the rest of the league games and the tournament play."

Here is the revised baseball schedule for the rest of the season:

May 3 at Miami Trace
May 4 Tournament at Logan Elm

Concert Band To Present Smorgasbord And Concerts

By JOHN DOWLER

The Tiger Concert band will present two concerts next Friday at 6:30 and 8 p.m. in the Circleville High School auditorium. The band will also host the annual smorgasbord the same night.

The smorgasbord will be priced the same as last year: \$1.50 for adults, \$.75 for band members, and \$.75 for children under 12. All the proceeds from the smorgasbord go toward financing the band's trip to the Indianapolis 500.

Two concerts are being held on Friday night because the seating capacity of the auditorium cannot handle the usual large crowds. The two concerts are being held so that people who can't attend the early concert may attend the later one.

Some of the highlights of the concert will be the choir's performance of "Top of the World," "The Morning After," "Amen, So Be it," "Wedding Song," and others. There will also be a number by the boys' ensemble entitled "Close To You."

The stage band will present an all new style of music presentation this

Class Play Was Success

By Margaret Merrill

"Cheaper by the Dozen," presented by the CHS senior class April 26 and 27 was a success, according to the cast, the crew, and the audience. It was directed by Neal Handler.

The major reaction to the play seemed to be "laughter." It was a good comedy with a surprise ending. Even though the actors were not pros, they kept the attention of the audience with their humorous lines and actions.

According to Mr. Handler, he was very pleased with both performances. All of the crews worked well together with the cast. The cast never ceased to improve from the first practice on March 4 to the final performance on April 27, he said.

juniors and guests. A registration fee of \$1 must be paid when the completed form is returned to Steve Lust.

The junior class advisor, Mr. Lust, stated, "The kids have been doing the work; the decorations are going to be really nice, and I see the prom being a big success."

year with music of "yesteryear" and today.

The concert band will perform such selections as "Senior, Senior," "You are the Sunshine of my Life," "Where It's At," "Cherish," "Classical Gas," "March from the First Suite in E Flat," "Wakefield's—The Six Wives of Henry VIII," and others.

Other small skits and ensemble groups will perform throughout the concert.

The people who attend the concert and smorgasbord will also be able to see many paintings and exhibits by the art department of CHS, which will be on display at their annual art show before and during the concert.

Concert Band To Present Smorgasbord And Concerts

By JOHN DOWLER

The Tiger Concert band will present two concerts next Friday at 6:30 and 8 p.m. in the Circleville High School auditorium. The band will also host the annual smorgasbord the same night.

The smorgasbord will be priced the same as last year: \$1.50 for adults, \$.75 for band members, and \$.75 for children under 12. All the proceeds from the smorgasbord go toward financing the band's trip to the Indianapolis 500.

Two concerts are being held on Friday night because the seating capacity of the auditorium cannot handle the usual large crowds. The two concerts are being held so that people who can't attend the early concert may attend the later one.

Some of the highlights of the concert will be the choir's performance of "Top of the World," "The Morning After," "Amen, So Be it," "Wedding Song," and others. There will also be a number by the boys' ensemble entitled "Close To You."

The stage band will present an all new style of music presentation this

year with music of "yesteryear" and today.

The concert band will perform such selections as "Senior, Senior," "You are the Sunshine of my Life," "Where It's At," "Cherish," "Classical Gas," "March from the First Suite in E Flat," "Wakefield's—The Six Wives of Henry VIII," and others.

Other small skits and ensemble groups will perform throughout the concert.

The people who attend the concert and smorgasbord will also be able to see many paintings and exhibits by the art department of CHS, which will be on display at their annual art show before and during the concert.

Monday the Tigers will begin tournament action when they travel to Bishop Ready. Coach Lawhorn stated, "As far as we know, Ready has a good ball club. They placed third in a tough Central Catholic League."

Coach Lawhorn commented about the rest of the season, "Our boys are the kind that do not give up. We, as a team, are looking forward to the rest of the league games and the tournament play."

BOEN HALLUM

Boen Hallum Writes Of Area History

By RICK BUMGARDNER

Mr. Boen R. Hallum, freshman English teacher at Circleville Junior High School, has written several works of literature about history in the Scioto Valley. He was featured April 21 in the Columbus Sunday Dispatch.

Hallum lives at 48977 Lockbourne Road with his wife Hettie. Their three children have graduated and are no longer living at home.

Among the many pieces of work which Mr. Hallum has written are a manuscript, "The Talking Tree," (a history of the Logan Elm tree) and a musical fiction, "Logan, The Mingo," (a musical of the famous chief who gained his fame in the Scioto Valley). In his seven years of teaching at CJHS, Hallum said he came to respect the Pickaway-Ross area as a very historical and interesting part of the state, so he chose to write of this area in his literary works.

Hallum considers writing and gardening his favorite hobbies. He said the research part of his writing kept him very busy. His search for historical background took him not only to Circleville, but also to Columbus and Chillicothe.

When asked to comment on his literary works, Hallum stated, "I don't know how I have the boldness to write about this 'classic ground' area of Ohio. There are direct descendants of the original settlers who know far more than I will ever learn about this section of the Scioto Valley."

Lowe's Low Prices

Now More Necessary Than Ever

Long before the just-lifted price control program of the federal government, Lowe's had a price control program of our own — called Lowe's Low Prices. The idea was, and is, to hold prices at the lowest possible level on brand-name merchandise. And it has worked well. Lowe's has grown but our profit after taxes has always been less than 4c per dollar of sales. Last month, to prove that not all prices

are soaring, we published a 36-page Un-flation Consumer Guide (free at your Lowe's store) and show verified examples of Lowe's lower prices. Another truth, and bad news, is that inflation is real and growing in labor and materials. The good news is that our policy still is to maintain our prices as low as possible. These low prices are guaranteed for the next 10 days.

Lowe's Low Prices

Now More Necessary Than Ever

Long before the just-lifted price control program of the federal government, Lowe's had a price control program of our own — called Lowe's Low Prices. The idea was, and is, to hold prices at the lowest possible level on brand-name merchandise. And it has worked well. Lowe's has grown but our profit after taxes has always been less than 4c per dollar of sales. Last month, to prove that not all prices

are soaring, we published a 36-page Un-flation Consumer Guide (free at your Lowe's store) and show verified examples of Lowe's lower prices. Another truth, and bad news, is that inflation is real and growing in labor and materials. The good news is that our policy still is to maintain our prices as low as possible. These low prices are guaranteed for the next 10 days.

Your Horoscope

By FRANCIS DRAKE

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

FOR SATURDAY

ARIES (Mar. 21 to Apr. 20): A good time to develop a dormant talent, to repeat an old strategy when others fail. Don't yield to frustration in ANY situation. Keep your eyes on a gold future.

TAURUS (Apr. 21 to May 21): This will be one of those "give and take" days, with emphasis on the giving. The artistic, the extra trimming, the light touch can brighten all things.

GEMINI (May 22 to June 21): As with many others, you will get into difficulty if you speak or act in haste now. Stick to high principles, but avoid dissension, antagonism.

CANCER (June 22 to July 23): Some new events in the making, perhaps a new contact. Give rein to your liveliest hopes now. Do not antagonize those who are really well disposed toward you.

LEO (July 24 to Aug. 23): Express your ideas and opinions discreetly but firmly. Don't leave stones unturned which may have gems beneath. A generally good day—if you cooperate.

VIRGO (Aug. 24 to Sept. 23): You can make headway in most matters, but some concessions may be obligatory. Do not take on new ventures without thorough investigation. This is no day for acting blindly.

LIBRA (Sept. 24 to Oct. 23): Avoid a present tendency toward lethargy. Gear efforts to achieve objectives more quickly. Improvise occasionally. This day can be a helpful challenge.

SCORPIO (Oct. 24 to Nov. 23): Though yours is not usually a passive nature, you could place yourself behind the front lines through modesty. A bit of self-pressure wouldn't hurt a bit.

SAGITTARIUS (Nov. 23 to Dec. 21): A conservative and prudent attitude will keep you from going overboard through misguided enthusiasm—a tendency now. Be especially cautious in romantic matters.

CAPRICORN (Dec. 22 to Jan. 20): Warning signals are up where behavior and disposition are concerned! Without realizing it, you could be too quick to prescribe or criticize—with unhappy results.

AQUARIUS (Jan. 21 to Feb. 19): Iron out kinks in your plans and tactics. You should be able to interpret and handle situations ably now. In aiming for goals, however,

don't overreach.

PISCES (Feb. 20 to Mar. 20): Tip-top results indicated in current projects. You may be on delicate ground in some areas, but no dilemma exists without its solution. Search!

YOU BORN TODAY, though gifted along creative lines as are most Taureans, could also succeed notably in the business and financial fields. You would make an excellent merchant, stock broker or banker; would also thrive as a farmer or builder. You have a great love of heritage and tradition and could make an outstanding career of teaching history, archeology, anthropology and kindred subjects. Other fields suited to your many talents: painting, science (especially medicine), music, architecture and horticulture. Try to curb occasional tendencies toward obstinacy. Birthdate of: Horace Mann, noted educator; Audrey Hepburn, film star.

Embarrassingly Pointed Out

LONDON (AP) — The British Airports Authority (a government agency) is worried that the wrong people are getting the red carpet treatment at London Airport—at the taxpayers' expense.

It is investigating a case where one of the four VIP lounges was opened for the butler of a South American embassy who arrived with his ambassador's silver cutlery. He got the full treatment, chauffeur-driver car from plane to lounge, preferential baggage handling and free refreshments.

Said a BAA official, "Sometimes, the people we are told to expect do not arrive, and others who do not really qualify come in their place. It could be embarrassing to point this out."

Gold Miners Learned To Ski

WASHINGTON (AP) — The lost Sierra is an isolated corner of northeastern California that the '49ers penetrated for gold. In the beginning, most of them abandoned their diggings with the first heavy snowfall and retreated to the protection of the lowlands and valleys.

The Scandinavians jumping ship in San Francisco to join the gold rush taught them to make skis, and the miners conquered a region that was snow-bound for seven months of the year, with drifts as high as 40 feet.

A big killer year after year is heat. Heat takes the lives of about 175 Americans in an average year. In very hot summers, the death toll can rise to well over 500, directly caused by heat.

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

FOR SATURDAY
ARIES (Mar. 21 to Apr. 20): A good time to develop a dormant talent, to repeat an old strategy when others fail. Don't yield to frustration in ANY situation. Keep your eyes on a gold future.

TAURUS (Apr. 21 to May 21): This will be one of those "give and take" days, with emphasis on the giving. The artistic, the extra trimming, the light touch can brighten all things.

GEMINI (May 22 to June 21): As with many others, you will get into difficulty if you speak or act in haste now. Stick to high principles, but avoid dissension, antagonism.

CANCER (June 22 to July 23): Some new events in the making, perhaps a new contact. Give rein to your liveliest hopes now. Do not antagonize those who are really well disposed toward you.

LEO (July 24 to Aug. 23): Express your ideas and opinion discreetly but firmly. Don't leave stones unturned which may have gems beneath. A generally good day—if you cooperate.

VIRGO (Aug. 24 to Sept. 23): You can make headway in most matters, but some concessions may be obligatory. Do not take on new ventures without thorough investigation. This is no day for acting blindly.

LIBRA (Sept. 24 to Oct. 23): Avoid a present tendency toward lethargy. Gear efforts to achieve objectives more quickly. Improve occasionally. This day can be a helpful challenge.

SCORPIO (Oct. 24 to Nov. 22): Though yours is not usually a passive nature, you COULD place yourself behind the front lines through modesty. A bit of self-pressure wouldn't hurt a bit.

SAGITTARIUS (Nov. 23 to Dec. 21): A conservative and prudent attitude will keep you from going overboard through misguided enthusiasm—a tendency now. Be especially cautious in romantic matters.

CAPRICORN (Dec. 22 to Jan. 20): Warning signals are up where behavior and disposition are concerned! Without realizing it, you could be too quick to prescribe or criticize—with unhappy results.

AQUARIUS (Jan. 21 to Feb. 19): Iron out kinks in your plans and tactics. You should be able to interpret and handle situations ably now. In aiming for goals, however,

don't overreach.
PISCES (Feb. 20 to Mar. 20): Tip-top results indicated in current projects. You may be on delicate ground in some areas, but no dilemma exists without its solution. Search! YOU BORN TODAY, though gifted along creative lines as are most Taureans, could also succeed notably in the business and financial fields. You would make an excellent merchant, stock broker or banker; would also thrive as a farmer or builder.
